INDEPENDENT AUDITOR'S REPORT

Honorable Chairman and Members of the
Passaic Valley Water Commission
1525 Main Avenue
Clifton, New Jersey 07011

Gentlemen:

We have audited the accompanying statement of net assets of the Passaic Valley Water Commission as of December 31, 2007, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of the Passaic Valley Water Commission as of December 31, 2006 were audited by other auditors whose report dated July 20, 2007, expressed an unqualified opinion on those statements.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in accordance with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Passaic Valley Water Commission, as of December 31, 2007, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Honorable Chairman and Members of the
Passaic Valley Water Commission
Page 2.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 5, 2008 on our consideration of the Passaic Valley Water Commission's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. This report is an integral part of our audit performed in accordance with *Government Auditing Standards* and should be considered in assessing results of our audit.

The Management's Discussion and Analysis and Supplementary Information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board and the Division of Local Government Services, Department of Community Affairs, State of New Jersey. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

This report is intended solely for the information of management, the applicable federal agencies and the Division of Local Government Services, Department of Community Affairs, State of New Jersey. However, this report is a matter of public record and its distribution is not limited.

Very truly yours,

FERRAIOLI, WIELKOTZ, CERULLO & CUVA, P.A.
Certified Public Accountants

August 5, 2008

Required Supplementary Information

**PASSAIC VALLEY WATER COMMISSION
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2007**

As management of the Passaic Valley Water Commission, we offer the Commission's financial statements this narrative overview and analysis of the Commission's financial performance during the fiscal year ended December 31, 2007. Please read this analysis in conjunction with the Commission's financial statements, which follow this section.

Financial Highlights

- The Commission's assets exceeded its liabilities by \$63,420,306 (net assets) for the fiscal year reported. This compares to the previous year when assets exceeded liabilities by \$64,951,621.
- Total net assets are comprised of the following:
 - (1) Capital assets, net of related debt of \$50,918,400 includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt and unexpended funds related to the purchase or construction of capital assets.
 - (2) Restricted net assets of \$5,882,632 are restricted by constraints imposed from outside the Commission such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net assets of \$6,619,274 represent the portion available to maintain the Commission's continuing obligations to citizens and creditors.
- Total liabilities of the Commission increased by \$297,894 to \$133,034,486 during the fiscal year.

Overview of the Financial Statements

This annual report includes this management discussion, the independent auditor's report and the basic financial statements of the Commission. The financial statements also include notes that explain in more detail some of the information in the financial statements.

Required Financial Statements

The financial statements of the Commission report information of the entity using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities. The *Statement of Net Assets* includes all of the Commission's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to Commission creditors (liabilities). It also provides the basis for evaluating the capital structure of the Commission and assessing the liquidity and financial flexibility of the Commission.

**PASSAIC VALLEY WATER COMMISSION
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
DECEMBER 31, 2007**

All of the current year's revenues and expenses are accounted for in the *Statement of Revenues, Expenses and Changes in Net Assets*. This statement measures the results of the Commission's operations over the past year and can be used to determine whether the Commission has recovered all its costs through user fees and other charges, operational stability and credit worthiness.

The final required financial statement is the *Statement of Cash Flows*. This statement reports cash receipts and cash payments, and net changes in cash resulting from operations, investing and financing activities and provides answers to such questions as what operational sources provided cash, what was the cash used for, and what was the change in cash balance during the reporting period.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the financial statements. The notes to the financial statements begin immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information. This supplementary information follows the notes to the financial statements.

Financial Analysis of the Commission

One of the most important questions asked about the Commission's finances is "Is the Commission as a whole better able to fulfill its mission as a result of this year's activities?" The *Statement of Net Assets* and the *Statement of Revenues, Expenses and Changes in Net Assets* report information about the Commission's activities in a way that will help answer this question. These two statements report net assets of the Commission and the changes in those assets. The reader can think of the Commission's net assets – the difference between assets and liabilities – as one way to measure financial health or financial position. Over time, increases or decreases in the Commission's net assets are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider the non-financial factors such as changes in economic conditions, population growth, development, and new or changed government regulation.

**PASSAIC VALLEY WATER COMMISSION
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
DECEMBER 31, 2007**

Net Assets

As year-to-year financial information is accumulated on a consistent basis, changes in net assets may be observed and used to discuss the changing financial position of the Commission as a whole.

The Commission's net assets at fiscal year-end are \$63,420,306. This is a \$1,531,315 decrease under last year's net assets of \$64,951,621. A summary of the Commission's statement of net assets is presented in the following table:

Condensed Statement of Net Assets

	<u>FY 2007</u>	<u>FY 2006</u>	<u>Dollar Change</u>	<u>Percent Change</u>
Current and Non-current				
Assets	27,173,358	27,863,171	(689,813)	(2.48)%
Capital Assets	165,730,179	166,348,243	(618,064)	(0.37)%
Other Assets	<u>3,551,255</u>	<u>3,476,799</u>	<u>74,456</u>	2.14%
Total Assets	<u>196,454,792</u>	<u>197,688,213</u>	<u>(1,233,421)</u>	(0.62)%
Long-term Debt				
Outstanding	113,833,105	110,661,492	3,171,613	2.87%
Other Liabilities	<u>19,201,381</u>	<u>22,075,100</u>	<u>(2,873,719)</u>	(13.02)%
Total Liabilities	<u>133,034,486</u>	<u>132,736,592</u>	<u>297,894</u>	0.22%
Invested in Capital Assets, net of Related Debt	50,918,400	48,278,161	2,640,239	5.47%
Restricted	5,882,632	5,008,246	874,386	17.46%
Unrestricted	<u>6,619,274</u>	<u>11,665,214</u>	<u>(5,045,940)</u>	(43.26)%
Total Net Assets	<u>63,420,306</u>	<u>64,951,621</u>	<u>(1,531,315)</u>	(2.36)%

While the *Statement of Net Assets* shows the change in financial position of net assets, the *Statement of Revenues, Expenses and Changes in Net Assets* provides answers as to the nature and source of these changes. As can be seen in the following table, net assets decreased by \$1,531,315.

Net Assets (Continued)

**Condensed Statement of Revenues, Expenses
And Changes in Net Assets**

	<u>FY 2007</u>	<u>FY 2006</u>	<u>Dollar Change</u>	<u>Percent Change</u>
Operating Revenues	58,194,353	54,757,919	3,436,434	6.28%
Non-operating Revenues	<u>992,490</u>	<u>830,048</u>	<u>162,442</u>	19.57%
Total Revenues	<u>59,186,843</u>	<u>55,587,967</u>	<u>3,598,876</u>	6.47%
Depreciation	7,188,100	6,727,801	460,299	6.84%
Other Operating Expenses	46,683,992	41,220,455	5,463,537	13.25%
Other Non-operating Expense	<u>6,846,066</u>	<u>6,941,126</u>	<u>(95,060)</u>	(1.37)%
Total Expenses	<u>60,718,158</u>	<u>54,889,382</u>	<u>5,828,776</u>	10.62%
Change in Net Assets	(1,531,315)	698,585	(2,229,900)	(319.20)%
Prior Period Adjustments		2,491,053	(2,491,053)	(100.00)%
Beginning Net Assets	<u>64,951,621</u>	<u>61,761,983</u>	<u>3,189,638</u>	5.16%
Ending Net Assets	<u>63,420,306</u>	<u>64,951,621</u>	<u>(1,531,315)</u>	(2.36)%

The Commission's operating revenues increased by \$3,436,434 to \$58,194,353 in fiscal year 2007 from \$54,757,919 in 2006. This increase is primarily due to increased revenue from service agreements and water sales. Non-operating revenues increased by \$162,442 to \$992,490 from \$830,048 due to an increase in interest on investments. This increase in earnings is a variable condition based on changes in interest rates.

Budgetary Highlights

The State of New Jersey requires local authorities to prepare and adopt annual budgets in accordance with the Local Authorities Fiscal Control Law and regulations adopted by the Local Finance Board pursuant to this statute and codified as N.J.A.C. 5:31-1 et seq. The statutory budget was designed to demonstrate to the Bureau of Commission Regulation of the Division of Local Government Services that the cash flows of the Commission for the coming year will be sufficient to cover operating expenses, interest accruing on bonded indebtedness and cash payments of maturing bond and loan principal.

**PASSAIC VALLEY WATER COMMISSION
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
DECEMBER 31, 2007**

The Commission's on going capital plan is reviewed each year by the Commission's consulting engineer. Notable future capital improvements are listed below.

Dam Improvements	1,442,000
Backwash Water Supply Parts	61,800
Windows	77,250
Traveling Screens	257,500
Intake Improvements	515,000
High Crest Pump Station	154,500
Main Replacement	1,545,000
Valve Replacement	515,000
Vehicles/Equipment	412,000
Various Projects (Bonded)	<u>830,786</u>
	<u>5,810,836</u>

Debt Administration

At December 31, 2007, the Commission had outstanding New Jersey Environmental Infrastructure Fund bonds and revenue refunding bonds in the accreted amount of \$121,729,782. The debt service schedule goes out to 2027. Full details of the specific bond issues outstanding are found in Note 6 to the financial statements and the supplementary schedules.

Economic Factors, Future Years' Budgets and Rates

The Commissioners and management of the Commission consider many factors when preparing each year's budget and annual charges. Two of the main factors are growth in the Commission's system and new regulations issued by the State and Federal governments.

Contacting the Commission

This financial report is designed to provide our customers and creditors with a general overview of the Commission's finances and to demonstrate the Commission's accountability for the fees it receives. If you have any questions about this report or need additional information, contact the Passaic Valley Water Commission, 1525 Main Avenue, Clifton, NJ 07011.

"Notes to the Financial Statements" are an integral part of this report.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 1. GENERAL

The Passaic Valley Water Commission (the "Commission") was created and operates pursuant to the provisions of Chapter 195 of the Pamphlet Laws of 1923 of the State of New Jersey, as amended (N.J.S.A. 40:62-108 to 40:62-150, inclusive). The Commission was appointed by a Supreme Court Justice in 1927 pursuant to an application filed by the cities of Paterson, Passaic and Clifton in accordance with N.J.S.A. 40:62-109. Upon appointment, the Commission organized and commenced negotiations for the purchase of the waterworks facilities of the Passaic Consolidated Water Company together with all its rights and franchises. An agreement could not be reached for the purchase of the waterworks facilities. The Commission then instituted proceedings for the condemnation of the facilities. A court appointed commissioner examined and appraised the land, facilities and other property of the Passaic Consolidated Water Company. Finally, in 1930, the Commission acquired on behalf of the Owner Municipalities by condemnation and purchase, the pumping station, treatment facilities, distribution system reservoirs and real property of the Passaic Consolidated Water Company.

In accordance with N.J.S.A. 40:62-116, the waterworks facilities acquired by the Commission are owned jointly by the Owner Cities. Ownership interests were allocated among the Owner Cities by application of the formula established in N.J.S.A. 40:62-121 for the appointment of liability, as among the Owner Cities, for the indebtedness issued on behalf of the Commission. Under that formula, an Owner City was liable for the payment of the principal and interest on such indebtedness in the proportion that the assessed value of taxation of all real estate in such municipality for the year 1929 bears to the total assessed value for taxation of all real estate in all the municipalities in the year 1929. Thus, the City of Paterson was assigned a 57% interest, the City of Passaic a 29% interest, and the City of Clifton a 14% interest. The 1991 Amendments authorized the Commission to issue bonds secured by its Revenues, and in 1992, bonds were issued by the Commission to defease all bonds then outstanding which had been issued by the Owner Cities under that formula.

Water Supply Sources

The Commission utilizes two principal water supply sources to meet the demands placed upon its System. The Commission obtains water from the Passaic River system in accordance with legal rights granted to the Commission by the State of New Jersey, Department of Environmental Protection ("DEP"), under a permitting process established by statute and implemented by the rules and the regulations of the DEP and water from Wanaque North in the exercise of the rights of the Owner Cities under their agreements with the NJDWSC and the Commission.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 1. GENERAL, (continued)

Under the terms of Water Diversion Allocation Permit No. 5099 (the "Permit") issued to the Commission by the Division of Water Resources of the DEP, the Commission may divert up to 2.325 million gallons of water per month (MGW) from the Pompton and Passaic Rivers at the Two Bridges Intake, or from the Passaic River at the Little Falls Intake (at the Commission's filtration plant in Totowa), or jointly from both intakes, at the maximum rate of 75 million gallons per day (MGD). No minimum passing flow requirements have been imposed on the Commission's Little Falls Intake. Such requirements have been placed on the diversion allocation permits granted to the Hackensack Water Company (45090) and to NJDWSC (#5094) for their use of water from the Two Bridges site for the Wanaque South Reservoir Project to assure a minimum flow sufficient to preserve the Commission's rights. The Two Bridges Intake has been connected to the Commission's Little Falls Filtration Plant in Totowa, New Jersey, where river water is treated and purified.

In addition to the Permit, the Commission, as Agent for the Owner Cities under the Wanaque Agency Agreements, has an entitlement of 37.75% of the Wanaque North Reservoir operated by NJDWSC. These rights are equivalent to a supply of 35.48 MGD, based on the 1960's drought safe yield on 94 MGD for Wanaque North. Under the Wanaque Agency Agreement, the Commission is responsible for the payment of the Owner Cities' aggregate share (37.75%) of the operating and debt service expenses of NJDWSC attributable to the Wanaque North System. The Commission is also subject to a penalty provision in the event of a monthly overdraft from the Wanaque North, which has occurred from time to time.

Water Purification and Treatment Facilities

The Little Falls Filtration Plant was constructed by the East Jersey Water Company and first placed in service in 1903. At the time, the filtration plant was the first large-sized gravity rapid sand filter system in the United States. The adjacent Pump Station was completed in 1899 with a rated capacity of 75 MGD. The treatment plant and pumping station are located on the Passaic River in Totowa.

The Commission has significantly modernized the Little Falls Filtration Plant and Pumping Station. To enhance these facilities, the Commission has undertaken major capital improvements, including programs implemented from 1962-1966, in 1975 and from 1985-1987. Extensive facilities designed to process residuals generated from the water treatment phase were added in 1975. At present, the Little Falls Filtration Plant has a treatment capacity of 100 MGD and the Pumping Station a transmission capacity of 160 MGD. The Little Falls Water Treatment Plant Upgrade project will increase the delivered water capacity of the plant to 100 MGD.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 1. GENERAL, (continued)

Water from the Passaic River is taken in above Beattie's Dam in Totowa, New Jersey and is subjected to various physical and chemical processes. The Little Falls Water Treatment Plant has finished undergoing an upgrade which will enhance plant performance and expand plant capacity using advanced treatment processes that will meet quality goals for microbials and disinfection byproducts. The existing conventional clarification processes have been replaced by a ballasted flocculation process that provides a high degree of treatment at higher loading rates for varying water qualities. In addition to being more robust, the new process system has a very compact facility layout which has resulted in the achievement of significant construction cost savings. The second phase of the plant upgrade project, which includes installation of ozonation for disinfection which, in conjunction with the upgrade of the existing filters, will significantly improve the quality of water produced while enhancing the ability to control the formation of disinfection byproducts to meet future regulatory requirements. This state-of-the-art treatment plant upgrade was completed by mid-2004.

The entire water treatment and purification process at the Little Falls Filtration Plant is controlled and monitored so that the water delivered will comply with all applicable safe water standards. In addition, the Commission adheres to a rigorous sampling and testing protocol at its Little Falls laboratory facilities. The water produced at each stage of the treatment and purification process is monitored continuously for various characteristics to provide assurance of water quality. This surveillance program also extends to regular sampling and testing of water in the Passaic River, the tributary streams that flow into the river, the Commission's reservoirs, the Wanaque North water supplied by NJDWSC and the distribution system. As a result, the Commission has only been required on two occasions since 1981 to notify its customers of minor violations of water standards established by Federal or state law. The Commission promptly corrected the conditions which give rise to such violation.

The water which the Commission receives from the Wanaque North system is treated by the NJDWSC at its filtration works.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies:

A. Basis of Presentation

The financial statements of the Passaic Valley Water Commission have been prepared in accordance with generally accepted accounting principles (GAAP) applicable to enterprise funds of state and local governmental units. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the governing body has decided that the periodic determination of revenues earned, expenses incurred, and or net income is appropriate for capital maintenance, public policy, accountability or other purposes. The Governmental Accounting Standards Board GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Commission also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, provided they do not conflict with or contradict GASB pronouncements. The significant of the Commission's accounting policies are described below.

On January 1, 2004, the Commission adopted the provision of Governmental Accounting Standards Board Statement No. 34, "Basic Financial Statements - and Management Discussion and Analysis - for State and Local Governments." Statement No. 34 established standards for external financial reporting for all state and local governmental entities, which includes a statement of net assets, a statement of changes in net assets, and a statement of cash flows. It requires the classification of net assets into three components-invested in capital assets, net of related debt: restricted: and unrestricted. These classifications are defined as follows:

- *Invested in capital assets, net of related debt* - This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are any significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of invested in capital assets, net of related debt. Rather that portion of the debt is included in the same net assets component as the unspent proceeds.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

A. Basis of Presentation, (continued)

- *Restricted* - This component of net assets consists of constraints placed on net assets' use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted net assets* - This component of net assets consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

On January 1, 2004, the Commission also adopted the provisions of Governmental Accounting Standards Board Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. This statement requires that capital contributions to the Commission be presented as a change in net assets.

The adoption of Statements No. 34 and 33 had little effect on the basic financial statements except for the classification of net assets, the reflection of capital contributions as a change in net assets, and the inclusion of Management's Discussion and Analysis (MD&A) section providing an analysis of the Commission's overall financial position and results of operations.

B. Basis of Accounting

The Passaic Valley Water Commission prepares its financial statements on the accrual basis of accounting in accordance with generally accepted accounting principles. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recognized when the liability is incurred.

C. Grants

Contributions received from the U.S.E.P.A. and N.J.D.E.P. are recorded in the period in which they are awarded.

Grants receivable, if any, represent the total grant awards less amounts collected to date. Grants, if any, not internally restricted and utilized to finance operations are identified as non-operating revenue. Grants externally restricted for non-operating purposes are recorded as contributed capital and identified as grants-in-aid.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

D. Inventories of Materials and Supplies

Inventories are valued at the lower of cost (first-in, first-out basis) or market. Inventories consist primarily of chemicals, pipes, fittings, meters, valves and various other plumbing materials and supplies.

E. Property, Plant and Equipment

Property, Plant and Equipment is stated at cost which includes direct construction costs and other expenditures related to construction. Land is stated at approximate fair market value as of the date it was donated to the Commission.

System construction costs are charged to construction in progress until such time as given segments of the system are completed and placed into operation.

Depreciation is determined on a straight-line basis for all plant and equipment. Depreciation is provided over the following estimated useful lives:

Building and Improvements	20-50 Years
Water Mains and Interceptors	50 Years
Machinery and Equipment	10-20 Years
Furniture and Fixtures	5 Years
Vehicles	3-10 Years

Depreciation on assets acquired with grants-in-aid and contributed capital assets is recorded as a reduction of contributed capital.

A summary of the changes in property, plant and equipment at December 31, 2007 is as follows:

	<u>Balance Dec.31, 2006</u>	<u>Net Additions</u>	<u>Disposals</u>	<u>Balance Dec.31, 2007</u>
Capital Assets	187,433,285	6,570,036		194,003,321
Capital Improvements	75,312,423			75,312,423
Capital Leases	7,087,815			7,087,815
North Arlington Municipal Water System	4,309,300			4,309,300
Acquisition Expenses	<u>815,146</u>			<u>815,146</u>
	274,957,969	6,570,036	<u>0</u>	281,528,005
Accumulated Depreciation	<u>(108,609,726)</u>	<u>(7,188,100)</u>		<u>(115,797,826)</u>
Property, Plant and Equipment, Net	<u><u>166,348,243</u></u>	<u><u>(618,064)</u></u>	<u><u>0</u></u>	<u><u>165,730,179</u></u>

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

F. Restricted Accounts

In accordance with the bond resolution as amended and supplemented, the Commission has established the following cash and investment accounts for the deposit, in the priority of the order shown as follows, of all revenue received by the Commission:

Construction Account

Proceeds of all new money bond issues for capital improvement and expansion programs for the enhancement and extension of the Commission's water supply system.

Bond Reserve Account

An amount equal to the greatest bond service requirement of any future fiscal year for any bond not covered by bond service insurance.

Bond Renewal and Extension Account

An amount reasonably necessary, with respect to the facilities, for major repairs, renewals and replacements or maintenance not recurring annually.

Operating Reserve Account

An amount to provide a reserve for Operating Fund requirements.

Bond Service Account

An amount equal to unpaid interest and principal during the following fiscal year.

In addition to the accounts required by the 1992 bond resolution, the Commission has established the following additional operational investment accounts:

Contingency and Self-Insurance Reserve Fund

Amounts set aside to provide funds for contingencies concerning the self-insurance requirements of the Commission

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

F. Restricted Accounts, (continued)

Meter Deposits Reserve Fund

Amounts set aside representing meter deposits collected from customers.

In addition to the above, the Commission has also established the following restricted accounts:

Unemployment Compensation Insurance Account

Employee and employer contributions are transferred to this account for payment of unemployment compensation claims paid by the State Department of Labor and billed to the Commission.

G. Unamortized Debt Issue Costs and Debt Discount

Costs in excess of refunded debt incurred in connection with the 1987, 1992 and 2003 bond issues are being amortized over the lives of the issues calculated on a straight-line basis.

Bond issue costs incurred in connection with the 1987, 1992, 2000A, 2001, 2002, 2003 and 2005 bond issues and note issue costs in connection with the 2006 note are being amortized over the lives of the issues calculated on a straight-line basis.

Original issue discount and premium incurred in connection with the 1992, 2003 and 2005 bond issues and the original issue premium incurred with the 1998 and 2003 bond issues are being amortized over the lives of the issues calculated on a straight-line basis.

H. Operating Fund Budget

The budget amounts included in the statement of budget revenues and statement of budget expenditures were approved in accordance with the requirements of the "Local Finance Board" of the State of New Jersey, and were adopted by the Commissioners after legal advertisement and public hearing.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

I. Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J. Accreted Interest on Bonds

The Commission reports the Capital Appreciation Revenue Refunding Bonds, Series 1992 at their original principal amount plus the accretion to the date of the financial statements, which is in accordance with generally accepted accounting principles (GAAP). For budgetary purposes, accreted interest is not recognized as a current period expense because the interest will not be raised in the current budget but will be raised in the years when the bonds mature.

K. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Commission or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

L. Income Taxes

The Commission is exempt by law from federal and state income taxes and, therefore, no provision or liability for income taxes has been included in these financial statements.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

M. Reclassifications

Certain reclassifications have been made to the 2005 amounts to conform to the 2006 financial statement presentation. These reclassifications had no effect on the previously reported results of operations for 2005.

N. Impairment of Long-Lived Assets

The Commission has adopted Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of", (SFAS 144). Pursuant to SFAS 144, long-lived assets, or asset groups and certain identifiable intangible assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Determination of recoverability is based on an estimate of undiscounted cash flows resulting from the use of the asset, or asset groups and its eventual disposition. Measurement of an impairment loss for long-lived assets, or asset groups, and certain identifiable intangible assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets, or asset groups and certain identifiable intangible assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell.

NOTE 3. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 3. CASH AND CASH EQUIVALENTS, (continued)

All collateral must be deposited with the Federal Reserve Bank of New York, The Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.00.

As of December 31, 2007, the Commission's cash and cash equivalents are summarized as follows:

	Money Market/ Checking <u>Accounts</u>	<u>Total</u>
Unrestricted	2,146,649	2,146,649
Restricted	<u>5,633,981</u>	<u>5,633,981</u>
	<u>7,780,630</u>	<u>7,780,630</u>

The carrying amount of the Commission's cash and cash equivalents at December 31, 2007 was \$7,780,630 and the bank balance was \$8,254,087. This entire amount was covered by federal depository insurance and the collateral pool maintained by the banks as required by New Jersey Statutes.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposit may not be returned to it. The Commission's policy is based on New Jersey statutes requiring cash be deposited only in New Jersey based on banking institutions that participate in New Jersey Governmental Depository Protection Act (GUDPA) or in a qualified investment established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. As of December 31, 2007, \$-0- of the Commission's bank balance of \$8,254,087 was exposed to custodial risk.

NOTE 4. INVESTMENTS

Investments are stated at fair value, which is determined using selected bases. The Commission classifies certificates of deposit that have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments. As of December 31, 2007, the Commission had \$1,202,539 invested in certificates of deposit with maturity dates greater than 3 months.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 4. INVESTMENTS, (continued)

Interest Rate Risk

The Commission does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 40A:5-15.1(a) limits the length of time for most investments to 397 days.

Credit Risk

New Jersey Statutes 40A:5-15.1(a) limits municipal investment maturities to those specified in the Statutes. The type of allowance investments are Bonds of the United States of America or the local unit or school districts of which the local unit is part of; obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk

The Commission places no limit on the amount it may invest in any one issuer.

NOTE 5. NEW JERSEY ENVIRONMENTAL INFRASTRUCTURE TRUST

The Commission issued bonds in 2001, 2002 and 2007 through the Trust to finance the improvement to the treatment facilities. The proceeds of the Bonds are held by the Trust until the Commission expends funds on the project. The Commission then submits for reimbursement of these expenditures from the Trust. The following is the remaining amount of funds to be received by the Trust:

	Balance <u>Dec.31, 2006</u>	Issued	Less: Amounts <u>Received</u>	<u>Adjustments</u>	Balance <u>Dec.31, 2007</u>
NJEIT - Fund & Trust	<u>2,411,432</u>	<u>3,615,780</u>	<u>(736,905)</u>	<u>(2,461,432)</u>	<u>2,828,875</u>

These funds shall be disbursed to the Commission under the terms of its loan agreements with the New Jersey Environmental Infrastructure Trust.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 6. LONG-TERM DEBT

The Commission has issued and has outstanding the following bonds as of December 31, 2007 and 2006.

	<u>2007</u>	<u>2006</u>
Series 1992 CAB Bonds	6,996,794	7,823,193
Series 2000A Bonds	4,100,000	4,510,000
Series 2001A&B NJ Environmental Infrastructure Trust Bonds	49,745,672	53,472,782
Series 2002A&B NJ Environmental Infrastructure Trust Bonds	5,091,536	8,047,160
Series 2003 Refunding Bonds	35,080,000	35,295,000
Series 2005 Refunding Bonds	10,080,000	10,345,000
Series 2007A&B NJ Environmental Infrastructure Trust Bonds	3,615,780	
Series 2007C Refunding Bonds	<u>7,070,000</u>	<u> </u>
Net Carrying Amount of Debt	<u>121,779,782</u>	<u>119,493,135</u>
Current Portion	7,306,397	6,962,908
Long-Term Portion	<u>114,473,385</u>	<u>112,530,227</u>
	<u>121,779,782</u>	<u>119,493,135</u>

Presented below is a summary of debt service requirements to maturity.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2008	6,213,376	4,556,570	10,769,946
2009	6,393,735	4,669,851	11,063,586
2010	6,454,435	4,708,995	11,163,430
2011	6,539,037	4,738,633	11,277,670
2012	6,595,794	4,756,687	11,352,481
2013	8,197,672	3,242,098	11,439,770
2014	8,511,972	3,044,999	11,556,971

NOTE 6. LONG-TERM DEBT, (continued)

Series 1992 Capital Appreciation Bonds

The 1992 Bonds maturing June 30, 1992 through December 15, 2012, inclusive (the "Capital Appreciation Bonds") were dated and bear interest from the date of issuance and will mature in the amounts equal to the maturity amounts which are set forth in the following table plus interest compounded on each June 15, and December 15, commencing on June 30, 1992 in each year until maturity. The interest on the Capital Appreciation Bonds will be payable as part of the maturity amount only at maturity.

The 1992 Bonds that mature in years 2008-2012 are capital appreciation bonds that are accreting principal on an annual basis. The amount of accretion that has been accrued as of December 31, 2007 is \$9,316,516.75. This amount is recorded on the Commission's books as an increase in interest expense and bonds payable. The Commission has been providing for this level debt service payment in its current rate structure.

Principal and interest due on outstanding 1992 bonds to maturity is as follows:

<u>Year</u>	<u>Original Principal</u>	<u>Dec.31,2007 Accreted Principal</u>	<u>Accreted Principal Remaining</u>	<u>Principal at Maturity</u>
2008	826,058	1,581,979	1,093,021	2,675,000
2009	860,949	1,488,268	1,186,732	2,675,000
2010	806,834	1,394,686	1,280,314	2,675,000

NOTE 6. LONG-TERM DEBT, (continued)

Series 2000A Water Supply System Revenue Bonds

On November 1, 2000, the Commission issued Series 2000A Water Supply System Revenue Bonds in the amount of \$6,600,000 for: (i) the retirement and refunding of 1998 Subordinate Project Notes; (ii) system improvements; (iii) the funding of the Bond Reserve Requirement; and (iv) costs of issuance. The bond bears interest of 5.00% per annum and will mature in 2015.

At December 31, 2007, the principal and interest outstanding on the Series 2000A Bonds was as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2008	425,000	205,000	630,000
2009	450,000	183,750	633,750
2010	470,000	161,250	631,250
2011	495,000	137,750	632,750
2012	520,000	113,000	633,000
2013	550,000	87,000	637,000
2014	580,000	59,500	639,500
2015	<u>610,000</u>	<u>30,500</u>	<u>640,500</u>
	<u>4,100,000</u>	<u>977,750</u>	<u>1,270,500</u>

Series 2001A&B NJ Environmental Infrastructure Trust Bonds

In 2001, the Commission implemented major capital improvements at its Little Falls Treatment Plant ("the Project") to comply with the Safe Drinking Water Act ("SDWA"). The Commission initially funded this project with two loans from the New Jersey Environmental Infrastructure Trust ("NJEIT").

Series 2002A&B Environmental Infrastructure Trust Bonds

Due to unanticipated cost increases in the Project, the Commission requested and received additional funding from the NJEIT in the form of two additional loans. These loans were issued in December 2002 and are due August 21, 2021.

The first loan (Series 2002A) was for \$8,227,632, of which \$4,227,632 is a non-interest bearing Fund Loan payable in semi-annual installments and due August 1, 2021. This Fund Loan was adjusted \$1,046,046 by the NJ Bureau of Administration and Management for the remaining unspent portion of the Project (adjusted from the back-end of the loan). The remaining portion of the 2002A loan was a \$4,000,000 Trust Loan payable in semi-annual installments and due August 1, 2021.

2026	495,000	50,500	545,500
2027	<u>515,000</u>	<u>25,750</u>	<u>540,750</u>
	<u>7,070,000</u>	<u>3,771,366</u>	<u>10,841,366</u>

NOTE 7. CAPITALIZED LEASE PAYABLE - LODI WATER SYSTEM

In July of 1997, a 30 year lease agreement between the Commission and the Borough of Lodi took effect. The lease agreement conveyed the real and personal property, plants, structures, including reservoirs, pumping stations, water distribution systems, sources of water supplies, connections, rights of flowage or diversion and all other rights therein owned by Lodi in connection with its water distribution system (hereinafter collectively referred to as the System) to the Commission. The lease also requires the Commission to manage, operate and maintain the System in an efficient and economical manner in accordance with its terms and otherwise in accordance with prudent industry and utility practices.

The lease required payments to be made of \$3,200,000 in 1997, \$2,500,000 in 1998 and \$750,000 in 1999, followed by a succession of annual payments beginning in the year 2001 of \$45,000 rising to approximately \$97,000 in the year 2027.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 7. CAPITALIZED LEASE PAYABLE - LODI WATER SYSTEM, (continued)

The lease also requires the Commission to make capital expenditures and improvements to the System in each year the lease is in effect beginning with approximately \$95,000 required in 1997 and approximately \$103,000 required in 1998, and increasing each year by various amounts to a level of approximately \$250,000 required in the year 2026. As of December 31, 2007, the Commission has expended in excess of the required capital improvements.

The lease obligation has been funded by the issuance of the 1997A Bonds in the total amount of \$7,135,000 and has been recorded in the financial statements at its discounted value using the same 5% interest rate of the 1997A Bonds.

The lease contains options for the Borough of Lodi to terminate the lease after either ten (10) years or after twenty (20) years by paying the Commission an amount sufficient to pay or defease the outstanding principal amount and premium, if any, of the 1997A Bonds then outstanding. The lease also requires the Borough of Lodi to reimburse to Commission for all capital expenditures upon termination.

Total future minimum lease payments under lease obligations at December 31, 2007 was as follows:

<u>Year</u>	<u>Required Lodi Lease Payments</u>	<u>Present Value Factor</u>	<u>Present Value of Lodi Lease Payable</u>
2008	55,344	95.24%	52,709
2009	57,004	90.70%	51,704
2010	58,714	86.38%	50,719
2011	60,476	82.27%	49,754
2012	62,290	78.35%	48,806
2013	64,159	74.62%	47,876

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 8. PENSION PLAN

Description of Plan

All required employees of the Commission are covered by the Public Employees' Retirement System which has been established by state statute and is administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System. This report may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/55 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 8. PENSION PLAN, (continued)

Significant Legislation

During the year ended June 30, 1997, legislation was enacted (Chapter 114, P.L. 1997) authorizing the New Jersey Economic Development Authority to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. Additional legislation enacted during the year ended June 30, 1997 (Chapter 115, P.L. 1997) changed the asset valuation method from market related value to full-market value. The legislation also provided that the Commission's normal contributions to the Fund may be reduced based on the revaluation of assets. Due to recognition of the bond proceeds and the change in asset valuation method as a result of enactment of Chapters 114 and 115, all unfunded accrued liabilities were eliminated, except for the unfunded liability for local early retirement incentive benefits, accordingly, the pension costs for PERS was reduced.

Contribution Requirements

The contribution policy is set by N.J.S.A. 43:15A, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PERS provides for employee contributions of 5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits and post-retirement medical premiums. Chapter 6 of Public Laws 1990 required PERS to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, Chapter 62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994 with an additional contribution beginning in fiscal year 1996 to maintain a medical reserve of one half of 1% of the active state payroll.

The State made post-retirement (PRM) contributions of \$211.5 million for PERS in fiscal year 2006. The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$100.7 million toward Chapter 126 benefits for 10,777 eligible retired members in Fiscal Year 2006.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 8. PENSION PLAN, (continued)

The Commission's contribution to the Public Employees' Retirement System, equal to the required contributions for each year, were as follows:

<u>Year ended December 31,</u>	<u>Amount</u>
2007	418,741
2006	190,028
2005	70,122

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION

On December 15, 2007, the Commission implemented the Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This statement provides a more complete, reliable and decision-useful financial statement in regards to the costs and financial obligations that governments occur when they provide postemployment benefits other than pensions (OPEB) as part of the compensation for services rendered by employees.

The Commission currently vests employees for lifetime prescription drug coverage after 20 years of service.

NOTE 10. AMOUNTS REQUIRED BY BOND RESOLUTIONS

The following cash and investment accounts are required by the Commission's bond resolutions:

Current Debt Service

The Commission's 1992 General Bond Resolution states that the Bond Service Requirement equal the amount of unpaid interest or principal, plus, all interest and all principal payable during a fiscal year. At December 31, 2007 and 2006, the amounts required by bond resolution were as follows:

	<u>2007</u>	<u>2006</u>
Cash and Investments on Hand	<u>2,284,563</u>	<u>2,180,215</u>

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 10. AMOUNTS REQUIRED BY BOND RESOLUTIONS, (continued)

Debt Service Reserve

The 1992 General Bond Resolution states that the Commission's Bond Reserve Requirement equal the lesser of (i) 10% of the aggregate principal amount of Bonds upon original issuance or (ii) the amount equal to the Maximum Annual Debt Service. In 2005 and 2007, the Commission purchased bond service insurance policies covering the 1992, 2001A&B, 2002A&B, 2003, 2005, 2007A&B and 2007C Bonds. As a result, the Commission has amended the applicable bond resolution to allow for the use of insurance to meet it's future debt service requirement. At December 31, 2007, the amounts required by bond resolution were as follows:

	<u>Debt Service Reserve Requirement</u>	<u>Maximum Bond Surety Coverage</u>
Series 1992 CAB Bonds	2,140,000	2,140,000
Series 2000A Bonds	645,865	- *
Series 2001A&B NJEIT Bonds	4,264,756	4,384,887
Series 2002A&B NJEIT Bonds	527,701	631,874
Series 2003 Refunding Bonds	3,588,000	3,588,000
Series 2005 Refunding Bonds	941,000	941,000
Series 2007A&B NJEIT Bonds	101,968	101,968
Series 2007C Bonds	545,500	545,500

*Debt Service Reserve Requirement is funded by cash in the Commission's Debt Service Reserve and General Operating accounts.

Renewal and Extension Reserve

The 1992 General Bond Resolution states that the Commission's Renewal and Extension Reserve equal the amount reasonably necessary as a reserve for expenses to the System for major repairs, renewals, replacements, extensions, enlargements, improvements or maintenance items of a type not recurring annually or at shorter intervals. At December 31, 2007 and 2006, the amounts required by bond resolution were as follows:

	<u>2007</u>	<u>2006</u>
Cash and Investments on Hand	1,200,000	1,200,000
Renewal and Extension Requirement	<u>1,200,000</u>	<u>1,200,000</u>
Excess (Deficit)	<u>-0-</u>	<u>-0-</u>

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 10. AMOUNTS REQUIRED BY BOND RESOLUTIONS, (continued)

Operations Reserve

The 1992 General Bond Resolution states that the Commission's Operating Fund Reserve equal an amount necessary to provide one month payment for Operating Expenses for the period beginning on such withdrawal date and ending on a date which is one month subsequent thereto. At December 31, 2007 and 2006, the amounts required by bond resolution were as follows:

	<u>2007</u>	<u>2006</u>
Cash and Investments on Hand	<u>2,500,053</u>	<u>1,724,278</u>

Coverage Covenant

The Commission's 1992 General Bond Resolution also includes a covenant that, among other things, requires the Commission to estimate, make, impose, charge, revise and collect revenues for each fiscal year sufficient (i) to pay all operating expenses of the Commission in each fiscal year, (ii) provide an amount equal to 110% of the aggregate bond service requirement and sinking fund requirement for such fiscal year and (iii) provide an amount so that the Operating Fund Reserve Account and the Renewal and Extension Account are at their respective requirements.

At December 31, 2007, the bond service coverage ratio was calculated as follows:

	<u>2007</u>	<u>2006</u>
Net Operating Income (excluding Depreciation)	12,502,851	13,847,970
Bond Service Requirement	10,769,946	11,242,452
Debt Service Coverage Ratio	1.16	1.23

All principal and interest payments were made on a timely basis during the 2007 fiscal year and through the date of this report.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 11. COMMITMENTS AND CONTINGENT LIABILITIES

As of December 31, 2007, the Commission's general counsel advises us that there is no pending litigation that would have a material effect on the Commission's financial statement except as follows:

Public Service Electric & Gas Company v. PVWC

The Plaintiff, Public Service Electric & Gas Company ("PSE&G") the New Jersey electric utility, filed the above-captioned complaint against PVWC, on or about May 5, 2008 ("the Action"). Within the Action, PSE&G seeks judgment against PVWC predicated upon PVWC's use of lands owned by PSE&G. In 1993, with PSE&G's authorization, PVWC constructed an underground, thirty-six (36") inch water line ("the Water Line") within the Athenia-Roseland Right-of-Way ("ROW") owned by PSE&G and used by PSE&G for electric utility service. PSE&G maintains an electric transmission line along the surface of the ROW. While PSE&G consented in writing to the installation of PVWC's Water Line in 1993, the amount of compensation to be paid by PVWC for easement rights in the RPW was never resolved. Over the intervening years, PVWC and PSE&G have had discussions concerning compensation to PSE&G for PVWC's use of the ROW. As agreement was never reached as to compensation.

In its complaint in the Action, PSE&G asserts that its 1993 consent to the installation of the Water Line has been rescinded because PVWC has not paid PSE&G for the use of the ROW. In its complaint in the Action, PSE&G pleads causes of action for Ejectment, Trespass, Breach of Contract, and Inverse Condemnation, and asks for judgment declaring PVWC's use of the RPW illegal, enjoining PVWC from continued occupancy of the ROW, and awarding PSE&G monetary damages.

In support of its claim for money damages, PSE&G refers to appraisal options obtained by PSE&G, valuing PVWC's occupancy of the ROW at four million six hundred and twenty thousand (\$4,620,000.00) dollars as of December 31, 2005. PSE&G demands judgment in the principal amount of \$4,620,000.00, plus uncalculated interest, and/or rental value, from at least the cited 2005 valuation date until the present. PVWC's use of the ROW is contractual in nature and claims for compensation for use value would not be subject to ordinate liability insurance coverage. PSE&G's complaint pleads claims for non-monetary relief, in the nature of dispossession in addition to monetary claims. Money damages appear to be the primary form of relief sought by PSE&G. PSE&G's complaint presents no compelling justification for the disruption of public utility water service that would result from eviction of PVWC from the ROW.

In June 2008, PSE&G served PVWC with its complaint filed under the above caption. PVWC has responded to the complaint by filing and serving upon PSE&G an Answer asserting that the value assigned to the ROW by PSE&G is unreasonable and excessive. The parties to the Action are preparing and responding to pretrial discovery requests.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 11. COMMITMENTS AND CONTINGENT LIABILITIES, (continued)

Due to the preliminary stage at which this Action is currently situated (pleadings and discovery phases), it is not possible to predict the outcome of the Action with any reasonable degree of certainty. While PVWC is asserting legal and factual defenses to PSE&G's claims, it can be noted at this initial stage of the Action, that PVWC's liability to pay PSE&G reasonable value for PVWC's use of the ROW.

Estate of Jackson v. PVWC

The Plaintiff has filed a Notice of Claim seeking 5 million dollars arising out of the drowning of an 11-year old boy who gained access to a reservoir owned and maintained by PVWC. A PVWC had backed a vehicle into the entranceway to a chain-linked fence prior to the drowning which had not been repaired.

Estate of Geetha Angara v. PVWC

The matter concerns the death of employee, Geetha Angara, found in underground water tank on water plant premises. Matter was investigated as homicide by Passaic County Prosecutor's Office and to date remains unsolved crime. Importantly, there is also a theory that the case is not a murder but rather an accidental death.

The civil suit alleges several theories of negligence and alleged "palpably unreasonable" conduct on the part of the Passaic Valley Water Commission and its employees such as inadequate security, failure to properly respond to prior threats of sabotage, abandonment of the buddy system, inadequate walkie-talkie communication, lack of motion sensors in the water tanks, delay in searching for the employee/victim, dangerous condition on public property.

Importantly, there are statutory defenses available to the Passaic Valley Water Commission under Title 59, and there is also a worker's compensation bar that is a defense that will also be raised.

There are various other cases pending which are in their preliminary stages. Most or all of the potential liabilities would be covered by insurance or be funded by future consumer charges.

NOTE 12. RISK MANAGEMENT

The Passaic Valley Water Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission currently has Property, Liability, Worker's Compensation, Public Officials Liability and Public Employee Dishonesty insurance purchased through various policies.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 13. DEFERRED COMPENSATION PLAN

Employees of the Passaic Valley Water Commission may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Government). The deferred compensation plan is available to all employees of the Commission. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency. The deferred compensation plan is administered by an unrelated financial institution. The employees' contributions to the Plan and all income attributable to those amounts have been transferred to the exclusive benefit of the participating employees and their beneficiaries.

NOTE 14. OTHER MATTERS

The Commission has a lease agreement with the North Jersey District Water Supply Commission/United Water New Jersey Company for the use of an intake pumping station located in Wayne. Rent is \$1 per annum plus an apportioned share, based upon square footage utilized by the Commission, of maintenance, utilities, real estate taxes and fire insurance. The approximate annual cost is \$30,000. The term of the lease is the same term as the Diversion Grant from the State of New Jersey to the North Jersey District Water Supply Commission/United Water New Jersey Company. In the event that the grant is renewed or extended, the term of the lease shall also be renewed or extended for a like period of time.

The Commission has been named as a defendant or third-party defendant in various claims for damages, and claims by several administrative employees regarding employment, health hazards and pay discrimination. Management is vigorously defending against these claims and believes the contingency and self-insurance reserve funds should be sufficient to cover any unfavorable decisions.

The Union contract that covers all of the Commission's employees expired in December of 2006. The Commission is currently negotiating a new contract.

On June 20, 2005, the Commission signed an Amended and Restated Easement Agreement involving a portion of Commission's property located in West Paterson for the purchase of providing secondary access to a Proposed Residential Community. The consideration for the easement is \$2,900,000 which has been reflected as Other Income in the Statements of Revenues and Expenses. The Commission previously received \$100,000 and the remaining balance of \$2,800,000 is to be paid in installments of \$400,000. The remaining \$800,000 balance is included in Other Receivables in the Statements of Net Assets.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 15. DESIGNATION OF UNRESTRICTED NET ASSETS

The Commission maintains funds that, although may be spent for any lawful purpose by the Authority, have been designated by the Board as follows:

	<u>2007</u>	<u>2006</u>
Designated for Self-Insurance	<u>1,611,771</u>	<u>1,611,771</u>
Total Designated - Unrestricted	<u>1,611,771</u>	<u>1,611,771</u>

NOTE 16. INTER-ACCOUNT ADVANCES

At December 31, 2007, the following inter-account advances were outstanding between restricted and unrestricted accounts:

	<u>Due from Other Accounts</u>	<u>Due To Other Accounts</u>
Unrestricted Accounts:		
General Operating Accounts	517,394	
Restricted Accounts:		
Renewal and Extension Accounts		500,005
Unemployment Compensation Insurance		<u>17,389</u>
	<u>517,394</u>	<u>517,394</u>

Advances between restricted and unrestricted accounts should be settled upon occurrence.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 17. PRIOR PERIOD ADJUSTMENTS

Change in Estimate

During 2004, Public Service Electric and Gas (PSE&G) intensified its intent to finalize its negotiation with the Commission concerning its allowing the Commission to use a portion of PSE&G's land for an easement. The Commission began using the land in the 1990's but no final agreement was ever reached concerning the yearly rental fee. The Commission is still negotiating with PSE&G to settle on an amount but management believes that \$750,000 should be an appropriate amount. This was recorded as a prior period adjustment in 2003 to properly reflect the amount applicable to each year since 1993 as an annual rent of \$62,500. The balance due to PSE&G at December 31, 2005 was \$812,500 and was included in accrued interest expenses and liabilities. In 2006, management believed that the terms of the agreement would be modified from a yearly rental to the purchase of a permanent easement. Upon finalization of this agreement, the Commission recorded this easement as a capital asset. Consequently, the \$812,500, which had previously been recorded, has been credited directly to net assets as a prior period adjustment.

Reclassification of Banked Water

During 2002, the Commission began participating in a water exchange program, entitled "Water Bank", between itself and other local water companies. The idea behind this program was to assist other water companies in times of shortages without the immediate burden on cash flow that would result in a direct billing for service.

In 2002, the Commission established a "Banked Water" receivable account based on the total gallons due to multiplied by the current wholesale rent increasing the current period revenue. As water exchanges occurred, the Commission continued updating this receivable based on total water due and the updated wholesale exchange rate. In 2006, the Commission reclassified the amount originally charged to current revenue to a deferred revenue in order to conform with generally accepted accounting principles.

Sales and Use Tax Liability

In 2007, a former energy supplier of the Commission conducted a self-audit of all "tax-exempt" customers to determine if a valid exemption certificate for sales and use tax was on record and qualified for exemption under the State of New Jersey tax code. The result of this examination concluded that the Commission's certificate did not meet the criteria for exemption specified by the State and a tax liability of \$498,403 (\$381,370 sales and use tax due, \$117,033 interest) was due for the period beginning January 1, 2004 through June 30, 2007. In 2007, the Commission established a current liability of \$66,456 for the assessment and adjusted the prior period financial statements for the remaining \$431,947 prorated allocation.

**PASSAIC VALLEY WATER COMMISSION
NOTES TO FINANCIAL STATEMENTS, CONTINUED
FOR THE YEAR ENDED DECEMBER 31, 2007**

NOTE 17. PRIOR PERIOD ADJUSTMENTS, (continued)

Contingency and Self-Insurance Reserve

In previous years, the Commission established a reserve for various contingencies and insurance claims as a liability. These have been reclassified as a designation from unrestricted net assets to conform with generally accepted accounting principles.

Net Adjustment for Series 1992 CAB Bonds

The Commission has restated accrued interest payable and bonds payable to conform with the Series 1992 CAB Bond accretion schedules and generally accepted accounting principles.

Supplementary Schedules

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Chairman and Members of the
Passaic Valley Water Commission
1525 Main Avenue
Clifton, New Jersey 07011

We have audited the financial statements of the Passaic Valley Water Commission as of and for the year ended December 31, 2007, and have issued our report thereon dated August 5, 2008. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Passaic Valley Water Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Passaic Valley Water Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effective of the Passaic Valley Water Commission's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affect the Passaic Valley Water Commission's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Passaic Valley Water Commission's financial statements that is more than inconsequential will not be prevented or detected by the Passaic Valley Water Commission's internal control.

As noted in the accompanying schedule of findings and questioned costs, we consider the following to be significant deficiencies:

- Inadequate procedures for the monitoring of account balances and significant account fluctuations,
- Absence of appropriate segregation of duties consistent with appropriate control objectives,
- Evidence of failure to properly maintain fixed assets schedule,
- Evidence of failure to perform tasks that are part of internal control, such as reconciliations not prepared or not timely prepared.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Passaic Valley Water Commission's internal control.

We did not consider the significant deficiencies noted above to be on material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Passaic Valley Water Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed several instances of noncompliance or other matters that we have reported to management in our report entitled "Comments and Recommendations" (Findings 2007-5, 2007-6, 2007-7, 2007-8 and 2007-10).

This report is intended solely for the information of governing body, management, the Division of Local Government Services, Department of Community Affairs, State of New Jersey, Federal Awarding Agencies and Pass Through Entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL AND STATE PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND N.J. OMB CIRCULAR 04-04

Honorable Chairman and Members of the
Passaic Valley Water Commission
1525 Main Avenue
Clifton, NJ 07011

Compliance

We have audited the compliance of the Passaic Valley Water Commission with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* and the *New Jersey State Office of Management and Budget's State Aid/Grant Compliance Supplement* that are applicable to each of its major federal and state programs for the fiscal year ended December 31, 2007. The Passaic Valley Water Commission's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the Passaic Valley Water Commission's management. Our responsibility is to express an opinion on the Passaic Valley Water Commission's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations"; and the provisions of the New Jersey State Treasury Circular Letter 04-04 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and OMB Circular A-133 and N.J. OMB Circular 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Passaic Valley Water Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Passaic Valley Water Commission's compliance with those requirements.

Honorable Chairperson and Members of the
Passaic Valley Water Commission
Page 2.

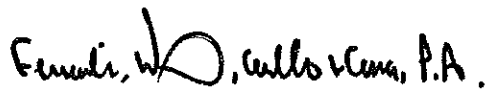

In our opinion, the Passaic Valley Water Commission complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal and state programs for the fiscal year ended December 31, 2007.

Internal Control Over Compliance

The management of the Passaic Valley Water Commission is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal and state programs. In planning and performing our audit, we considered the Passaic Valley Water Commission's internal control over compliance with the requirements that could have a direct and material effect on a major federal and state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and N.J. OMB Circular 04-04.

Our consideration of internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relative low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal and state program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information of the management and the New Jersey State Department of Community Affairs, other state and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

PASSAIC VALLEY WATER COMMISSION

NOTES TO THE SCHEDULES OF EXPENDITURES
OF FEDERAL AND STATE AWARDS
YEAR ENDED DECEMBER 31, 2007

NOTE 1. GENERAL

The accompanying Schedule of Expenditures of Federal and State Awards present the activity of all federal and state award programs of the Passaic Valley Water Commission. The Commission is defined in Note 1 to the Commission's basic financial statements. All state awards received directly from state agencies, as well as state financial assistance passed through other government agencies is included on the Schedule of Expenditures of State Financial Assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Awards and Financial Assistance are presented on the accrual basis of accounting. These bases of accounting are described in Notes 2(A) to the Commission's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

Awards and financial assistance are reported in the Commission's basic financial statements on a GAAP basis as follows:

	Balance Dec.31, 2006	<u>Issued</u>	Less: Amounts <u>Received</u>	<u>Adjustments</u>	Balance Dec.31, 2007
NJEIT - Fund & Trust	<u>2,411,432</u>	<u>3,615,780</u>	<u>(736,905)</u>	<u>(2,461,432)</u>	<u>2,828,875</u>

NOTE 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

PASSAIC VALLEY WATER COMMISSION

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS

Contracts and Agreements Required to be Advertised Per N.J.S. 40A:11-3

Effective April 17, 2000 and thereafter the bid thresholds in accordance with N.J.S.A. 40A:11-3 (as amended) is \$25,000. On July 1, 2005, the bid threshold was increased to \$29,000.

N.J.S.A. 40A:11-2 contains definitions for terms used throughout N.J.S.A. 40A:11-1 et seq. and was amended under P.L. 1999, c.440. It includes as subsection (23) the term 'competitive contracting', which is defined as "the method described in sections 1 through 5 of P.L. 1999, c.440 (C.40:11-4.1 through C.40A:11-4.5) of contracting for specialized goods and services in which formal proposals are solicited from vendors, formal proposals are evaluated by the purchasing agent or counsel; and the governing body awards a contract to a vendor or vendors from among the formal proposals received."

N.J.S.A. 40A:11-3 was amended with P.L. 1999, c.440 to raise the bid threshold and require award by governing body resolution. "When the cost or price of any contract awarded by the purchasing agent in the aggregate does not exceed in a contract year the sum of \$25,000 or \$29,000 after July 1, 2005, the contract may be awarded by a purchasing agent when so authorized by ordinance or resolution as appropriate to the contracting unit, of the governing body of the contracting unit without public advertising for bids and bidding therefore, except that the governing body may adopt an ordinance or resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations."

N.J.S.A. 40A:11-15 was amended with P.L. 1999, c.440 to extend the base contract period. "Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to paragraph (1) of subsection (a) of N.J.S.A. 40A:11-5 may be awarded for a period not exceeding 12 consecutive months.

The governing body of the Commission has the responsibility of determining whether the expenditures in any category will exceed the statutory threshold within the contract year. Where question arises as to whether any contract or agreement might result in violation of the statute, the opinion of the Commission's attorney should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

Our examination of expenditures revealed one individual payment, contract or agreement "for the performance of any work or the furnishing or hiring of any materials or supplies" in excess of the statutory thresholds where bids had not been previously sought by public advertisement or where a resolution had previously been adopted under the provisions of N.J.S.A. 40A:11-6.

Our review of the Commission's minutes indicated that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 40A:11-5.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-1*

STATEMENT OF CONDITION

Inadequate procedures for the monitoring of account balances (in regards to budgeted line items) and significant account fluctuations.

CRITERIA

Internal controls should be designed to assure that ongoing monitoring occurs during the course of normal operations. Monitoring should be performed continually and be ingrained in the agency's operations. This includes regular management and supervisory activities, comparisons, and other actions people take in performing their duties.

EFFECT

Certain expense accounts in the general ledger occasionally exceed amounts budgeted and show significant fluctuations in comparison to the prior year.

CAUSE

There could be major fluctuations between prior and current year due to changes in operations, but all parties should be aware of them as they happen. In the past, the Accounting Department would code all the expenses posted to the general ledger. Currently, each department is responsible for the coding of its own expenses.

RECOMMENDATION

The Accounting Department and each department should be aware of budgeted appropriations and major account fluctuations during the year and should be able to explain them. Additionally, the Accounting Department should review the coding of expenses posted to the general ledger during the year.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-2

STATEMENT OF CONDITION

Absence of appropriate segregation of duties consistent with appropriate control objectives.

CRITERIA

Duties should be segregated such that the work of one individual provides a cross-check on the work of another individual. Generally, assigning different people the responsibilities of authorizing transactions, recording transactions, and maintaining custody of related assets reduces the opportunities for an individual to both perpetrate and conceal errors or fraud in the normal course of duties.

EFFECT

Opportunities for an individual to perpetrate and conceal errors or fraud exists. The duties of accounts receivable maintenance, billing, receiving of cash payments, and reconciling bank statements are often performed by one individual. In addition, the cash disbursement, payment and recordkeeping functions are often performed by the same individual.

CAUSE

The small size of the Accounting Department has made it difficult to design or implement an overall internal control design.

RECOMMENDATION

The Commission should consider the cost/benefit of designing an effective system of internal controls.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-3*

STATEMENT OF CONDITION

Evidence of failure to properly maintain fixed assets schedule.

CRITERIA

Governmental entities should maintain a fixed asset list providing the cost and description of property and equipment, as well as any depreciation previously expensed against such listed assets.

EFFECT

Absent or inadequate controls over the safeguarding of assets.

CAUSE

Unknown.

RECOMMENDATION

The Commission should maintain a fixed asset list providing the cost and description of its property and equipment, as well as any depreciation previously expensed against such listed assets.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-4*

STATEMENT OF CONDITION

Evidence of failure to perform tasks that are part of internal control, such as reconciliations not prepared or not timely prepared.

CRITERIA

All investment accounts should be reconciled to the bank statements and the general ledger on a monthly basis and the reconciliations should be reviewed for accuracy.

EFFECT

Investment account balances and interest earned may be misstated on the general ledger.

CAUSE

Unknown.

RECOMMENDATION

That Accounting Department should reconcile the investment and cash accounts to bank statements on a monthly basis.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-5

STATEMENT OF CONDITION

Allocation of the "Administration" and "Cost of Providing Service" appropriations from the Commission's budget does not agree with the budget filed with the Department of Community Affairs (DCA). Additionally, unrestricted/undesignated net assets reported on the SS-9 include net assets invested in capital, net of related debt.

CRITERIA

For every budget, operating appropriations shall be itemized as to salary and wages, fringe benefits and other expenses and further classified as to administration and cost of providing service; and include total principal payments on debt service in lieu of depreciation. Additionally, unrestricted/undesignated net assets should represent accumulated earnings which have been retained from the entity operations and are not reserved for any special purpose; thereby making such funds available as a reduction to total operating and non-operating appropriations.

EFFECT

The Commission's itemized budget does not agree with the allocation from the DCA budget. Additionally, unrestricted/undesignated net assets on the SS-9 are overstated.

CAUSE

The Commission prepares its DCA budget using a percentage to allocate total appropriations, not the actual itemized budget.

RECOMMENDATION

The Commission should allocate DCA budget appropriations based on their itemized budget. Unrestricted/undesignated net assets on the SS-9 should exclude net assets invested in capital, net of related debt.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-6

STATEMENT OF CONDITION

Employee payroll deductions are deposited and transferred from the Commission's general operating accounts.

CRITERIA

Fiduciary transactions should be separated from the proprietary fund bank accounts.

EFFECT

Payroll tax and related deductions are not separated from the Commission's general operating bank accounts.

CAUSE

Unknown.

RECOMMENDATION

The Commission establish an agency account for all employee payroll deductions and taxes.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-7

STATEMENT OF CONDITION

Capital expenditures were made without a budgetary capital line item.

CRITERIA

N.J.A.C. 5:31-2.2 states that no authority shall make appropriations, authorize expenditures or adopt a security agreement for a capital project unless its provisions are in agreement with a previously adopted capital budget, temporary capital budget or amended capital budget.

EFFECT

The Commission is not in compliance with N.J.A.C. 5:31-2.2.

CAUSE

Unknown.

RECOMMENDATION

A resolution amending the capital budget should be made prior to capital expenditure.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-8

STATEMENT OF CONDITION

The Commission is not depositing employee's unemployment contributions (SUI) into a separate trust fund.

CRITERIA

Entities who elect to fund SUI under the Benefit Reimbursement Method withhold a portion of the employee's contributions in a separate trust fund rather than submit directly to the State. As unemployment claims arise, the State bills the government directly and amounts are paid directly through the trust account.

EFFECT

The unemployment account is not properly utilized.

CAUSE

The Commission deposited all SUI contributions and paid all claims through the general operating accounts and were unaware that activity had to go through a separate individual trust.

RECOMMENDATION

All employee unemployment contributions should be deposited into a separate trust. Additionally, all claims should be paid or funded through the unemployment trust.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-9

STATEMENT OF CONDITION

The Commission processes all payroll transactions and payroll returns internally.

EFFECT

The processing of payroll internally for a government of this size creates an unnecessary use of personnel and resources.

RECOMMENDATION

The Commission's payroll function should be outsourced.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

FINDING: 2007-10

STATEMENT OF CONDITION

The Commission is not filing a certificate that establishes an operating reserve fund on an annual basis.

CRITERIA

The 1992 General Bond Resolution requires the "Operating Fund Reserve Requirement" to equal the amount reasonably necessary as a reserve for operating expenses as stated in a certificate of a Commission Officer and filed with the Trustee by the Commission (a) prior to or simultaneously with the authentication and delivery of any series of bonds, and (b) at least annually beginning on a date not more than twelve months subsequent to the date of such certificate of a Commission Officer.

EFFECT

The \$2,500,053 Operations reserve is not in compliance with the 1992 General Bond Resolution..

RECOMMENDATION

The Commission should file a certificate establishing its operating reserve fund on an annual basis.

PASSAIC VALLEY WATER COMMISSION

GENERAL COMMENTS, CONTINUED

A review was performed on all prior year recommendations and corrective action was taken on all items, except those noted with an asterix "*".

Problems and weaknesses noted in our review were not of such magnitude that they would affect our ability to express an opinion on the financial statements taken as a whole.

Should any questions arise as to our comments or recommendations, or should you desire assistance in implementing our recommendations, do not hesitate to call us.

We wish to thank Passaic Valley Water Commission for their cooperation during the performance of our audit.

Respectfully submitted,.
