INDEPENDENT AUDITOR'S REPORT

Honorable Chairman and Members of the Passaic Valley Water Commission 1525 Main Avenue Clifton, New Jersey 07011

Ladies and Gentlemen:

We have audited the accompanying statement of net assets of the Passaic Valley Water Commission as of and for the years ended December 31, 2010 and 2009, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in accordance with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Passaic Valley Water Commission's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Passaic Valley Water Commission, as of December 31, 2010 and 2009, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Honorable Chairman and Members of the Passaic Valley Water Commission Page 2.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 4, 2011 on our consideration of the Passaic Valley Water Commission's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of our audit performed in accordance with *Government Auditing Standards* and should be considered in assessing results of our audit.

The Management's Discussion and Analysis and Supplementary Information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board and the Division of Local Government Services, Department of Community Affairs, State of New Jersey. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Passaic Valley Water Commission's basic financial statements. The accompanying supplementary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory section and supplementary schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying schedules of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Very truly yours,

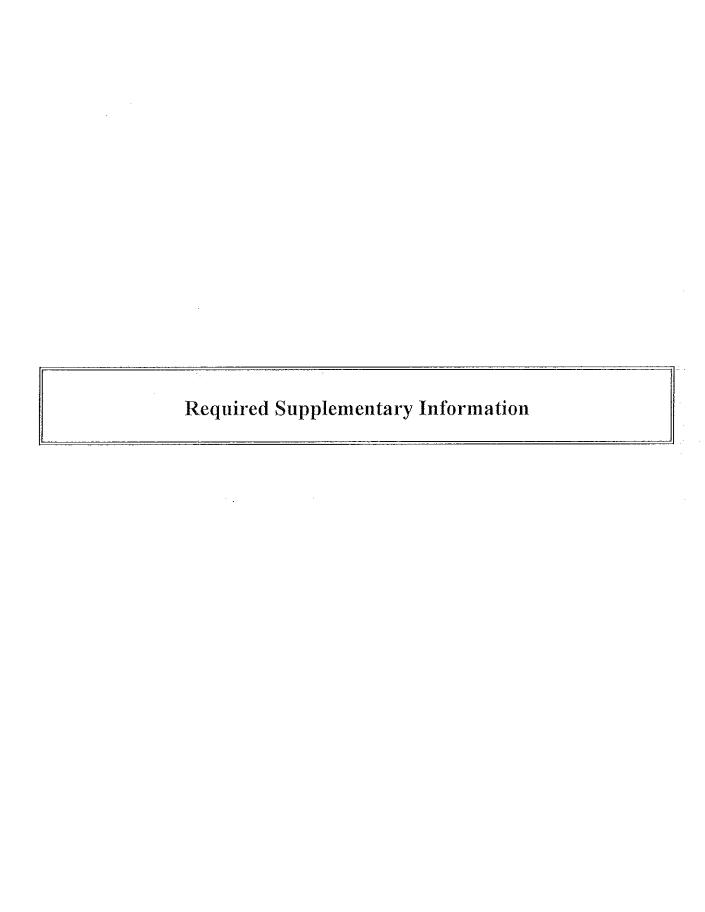

FERRAIOLI, WIELKOTZ, CERULLO & CUVA, P.A.

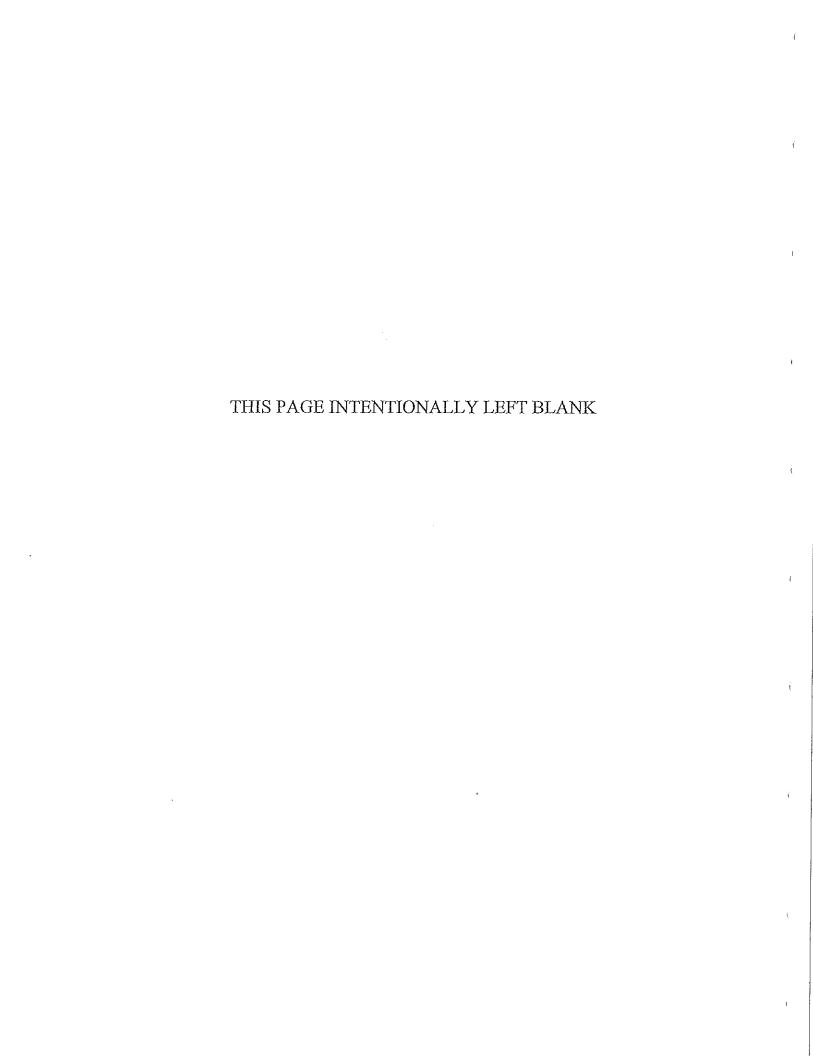

Fermi Ham, Cerllo o Care, P.A.

Certified Public Accountants

May 4, 2011

As management of the Passaic Valley Water Commission, we offer the Commission's financial statements this narrative overview and analysis of the Commission's financial performance during the fiscal year ended December 31, 2010. Please read this analysis in conjunction with the Commission's financial statements, which follow this section.

Financial Highlights

- The Commission's assets exceeded its liabilities by \$67,185,526 (net assets) for the fiscal year reported. This compares to the previous year when assets exceeded liabilities by \$63,962,143.
- Total net assets are comprised of the following:
 - (1) Capital assets, net of related debt of \$33,809,471 includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt and unexpended funds related to the purchase or construction of capital assets.
 - (2) Restricted net assets of \$25,013,937 are restricted by constraints imposed from outside the Commission such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net assets of \$8,362,118 represent the portion available to maintain the Commission's continuing obligations to citizens and creditors.
- Total liabilities of the Commission decreased by \$2,394,133 to \$158,781,305 during the fiscal year.

Overview of the Financial Statements

This annual report includes this management discussion, the independent auditor's report and the basic financial statements of the Commission. The financial statements also include notes that explain in more detail some of the information in the financial statements.

Required Financial Statements

The financial statements of the Commission report information of the entity using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities. The *Statement of Net Assets* includes all of the Commission's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to Commission creditors (liabilities). It also provides the basis for evaluating the capital structure of the Commission and assessing the liquidity and financial flexibility of the Commission.

All of the current year's revenues and expenses are accounted for in the *Statement of Revenues, Expenses* and Changes in Net Assets. This statement measures the results of the Commission's operations over the past year and can be used to determine whether the Commission has recovered all its costs through user fees and other charges, operational stability and credit worthiness.

The final required financial statement is the *Statement of Cash Flows*. This statement reports cash receipts and cash payments, and net changes in cash resulting from operations, investing and financing activities and provides answers to such questions as what operational sources provided cash, what was the cash used for, and what was the change in cash balance during the reporting period.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the financial statements. The notes to the financial statements begin immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information. This supplementary information follows the notes to the financial statements.

Financial Analysis of the Commission

One of the most important questions asked about the Commission's finances is "Is the Commission as a whole better able to fulfill its mission as a result of this years activities?" The Statement of Net Assets and the Statement of Revenues, Expenses and Changes in Net Assets report information about the Commission's activities in a way that will help answer this question. These two statements report net assets of the Commission and the changes in those assets. The reader can think of the Commission's net assets – the difference between assets and liabilities – as one way to measure financial health or financial position. Over time, increases or decreases in the Commission's net assets are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider the non-financial factors such as changes in economic conditions, population growth, development, and new or changed government regulation.

Net Assets

As year-to-year financial information is accumulated on a consistent basis, changes in net assets may be observed and used to discuss the changing financial position of the Commission as a whole.

The Commission's net assets at fiscal year-end are \$67,185,526. This is a \$3,223,383 increase over last year's net assets of \$63,962,143. A summary of the Commission's statement of net assets is presented in the following table:

Condensed Statement of Net Assets

	<u>FY 2010</u>	FY 2009	Dollar <u>Change</u>	Percent <u>Change</u>
Current and Non-current

Outstanding	141,342,989	109,974,680	31,368,309	28.52%
Other Liabilities	19,832,449	22,215,394	(2,382,945)	(10.73)%
Total Liabilities	161,175,438	132,190,074	28,985,364	21.93%
Invested in Capital Assets,				
net of Related Debt	32,248,707	54,380,603	(22,131,896)	(40.70)%
Restricted	24,756,012	6,124,378	18,631,634	304.22%
Unrestricted	<u>6,957,424</u>	1,365,541	5,591,883	409.50%
Total Net Assets	63,962,143	61,870,522	<u>2,091,621</u>	3.38%

While the Statement of Net Assets shows the change in financial position of net assets, the Statement of Revenues, Expenses and Changes in Net Assets provides answers as to the nature and source of these changes. As can be seen in the following table, net assets increased by \$3,223,383 and \$2,091,621 during the 2010 and 2009 fiscal years, respectively.

Net Assets (Continued)

Net Assets (Continued)

The Commission's operating revenues increased by \$9,831,282 to \$72,577,905 in fiscal year 2010 from \$62,746,623 in 2009. This increase is primarily due to increased revenue from service agreements and water sales. Non-operating revenues increased by \$773,558 to \$1,251,678 from \$478,120 due to a increase in interest on investments. This increase in earnings is a variable condition based on changes in interest rates.

Budgetary Highlights

The State of New Jersey requires local authorities to prepare and adopt annual budgets in accordance with the Local Authorities Fiscal Control Law and regulations adopted by the Local Finance Board pursuant to this statute and codified as N.J.A.C. 5:31-1 et seq. The statutory budget was designed to demonstrate to the Bureau of Commission Regulation of the Division of Local Government Services that the cash flows of the Commission for the coming year will be sufficient to cover operating expenses, interest accruing on bonded indebtedness and cash payments of maturing bond and loan principal.

The following tables provides a FY 2010 and FY 2009 budget comparison:

Budget vs. Actual FY 2010

	Budget	Actual	Variance
Revenues:			
Operating	74,940,071	72,577,905	(2,362,166)
Non-Operating	550,000	597,135	47,135

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

During fiscal year 2010, the Commission had an increase of \$6,978,851 in capital assets. The Commission's net property, plant and equipment at fiscal year end was \$161,428,474. This is a \$1,138,949 decrease under last year's net property, plant and equipment of \$162,567,423. A summary of the Commission's capital assets is presented in the following table:

CAPITAL ASSETS

	FY 2010	FY <u>2009</u>	Dollar <u>Change</u>
Capital Assets	212,840,740	205,861,889	6,978,851

Debt Administration

At December 31, 2010, the Commission had outstanding New Jersey Environmental Infrastructure Fund bonds and revenue refunding bonds in the accreted amount of \$146,135,272. The debt service schedule goes out to 2027. Full details of the specific bond issues outstanding are found in Note 6 to the financial statements and the supplementary schedules.

Economic Factors, Future Years' Budgets and Rates

The Commissioners and management of the Commission consider many factors when preparing each year's budget and annual charges. Two of the main factors are growth in the Commission's system and new regulations issued by the State and Federal governments.

Contacting the Commission

This financial report is designed to provide our customers and creditors with a general overview of the Commission's finances and to demonstrate the Commission's accountability for the fees it receives. If you have any questions about this report or need additional information, contact the Passaic Valley Water Commission, 1525 Main Avenue, Clifton, NJ 07011.

NOTE 1. GENERAL

The Passaic Valley Water Commission (the "Commission") was created and operates pursuant to the provisions of Chapter 195 of the Pamphlet Laws of 1923 of the State of New Jersey, as amended (N.J.S.A. 40:62-108 to 40:62-150, inclusive). The Commission was appointed by a Supreme Court Justice in 1927 pursuant to an application filed by the cities of Paterson, Passaic and Clifton in accordance with N.J.S.A. 40:62-109. Upon appointment, the Commission organized and commenced negotiations for the purchase of the waterworks facilities of the Passaic Consolidated Water Company together with all its rights and franchises. An agreement could not be reached for the purchase of the waterworks facilities. The Commission then instituted proceedings for the condemnation of the facilities. A court appointed commissioner examined and appraised the land, facilities and other property of the Passaic Consolidated Water Company. Finally, in 1930, the Commission acquired on behalf of the Owner Municipalities by condemnation and purchase, the pumping station, treatment facilities, distribution system reservoirs and real property of the Passaic Consolidated Water Company.

In accordance with N.J.S.A. 40:62-116, the waterworks facilities acquired by the Commission are owned jointly by the Owner Cities. Ownership interests were allocated among the Owner Cities by application of the formula established in N.J.S.A. 40:62-121 for the appointment of liability, as among the Owner Cities, for the indebtedness issued on behalf of the Commission. Under that formula, an Owner City was liable for the payment of the principal and interest on such indebtedness in the proportion that the assessed value of taxation of all real estate in such municipality for the year 1929 bears to the total assessed value for taxation of all real estate in all the municipalities in the year 1929. Thus, the City of Paterson was assigned a 57% interest, the City of Passaic a 29% interest, and the City of Clifton a 14% interest. The 1991 Amendments authorized the Commission to issue bonds secured by its Revenues, and in 1992, bonds were issued by the Commission to defease all bonds then outstanding which had been issued by the Owner Cities under that formula.

Water Supply Sources

The Commission utilizes two principal water supply sources to meet the demands placed upon its System. The Commission obtains water from the Passaic River system in accordance with legal rights granted to the Commission by the State of New Jersey, Department of Environmental Protection ("DEP"), under a permitting process established by statute and implemented by the rules and the regulations of the DEP and water from Wanaque North in the exercise of the rights of the Owner Cities under their agreements with the NJDWSC and the Commission.

NOTE 1. GENERAL, (continued)

Under the terms of Water Diversion Allocation Permit No. 5099 (the "Permit") issued to the Commission by the Division of Water Resources of the DEP, the Commission may divert up to 2.325 million gallons of water per month (MGW from the Pompton and Passaic Rivers at the Two Bridges Intake, or from the Passaic River at the Little Falls Intake (at the Commission's filtration plant in Totowa), or jointly from both intakes, at the maximum rate of 75 million gallons per day (MGD). No minimum passing flow requirements have been imposed on the Commission's Little Falls Intake. Such requirements have been placed on the diversion allocation permits granted to the Hackensack Water Company (45090) and to NJDWSC (#5094) for their use of water from the Two Bridges site for the Wanaque South Reservoir Project to assure a minimum flow sufficient to preserve the Commission's rights. The Two Bridges Intake has been connected to the Commission's Little Falls Filtration Plant in Totowa, New Jersey, where river water is treated and purified.

In addition to the Permit, the Commission, as Agent for the Owner Cities under the Wanaque Agency Agreements, has an entitlement of 37.75% of the Wanaque North Reservoir operated by NJDWSC. These rights are equivalent to a supply of 35.48 MGD, based on the 1960's drought safe yield on 94 MGD for Wanaque North. Under the Wanaque Agency Agreement, the Commission is responsible for the payment of the Owner Cities' aggregate share (37.75%) of the operating and debt service expenses of NJDWSC attributable to the Wanaque North System. The Commission is also subject to a penalty provision in the event of a monthly overdraft from the Wanaque North, which has occurred from time to time.

(

Water Purification and Treatment Facilities

The Little Falls Filtration Plant was constructed by the East Jersey Water Company and first placed in service in 1903. At the time, the filtration plant was the first large-sized gravity rapid sand filter system in the United States. The adjacent Pump Station was completed in 1899 with a rated capacity of 75 MGD. The treatment plant and pumping station are located on the Passaic River in Totowa.

The Commission has significantly modernized the Little Falls Filtration Plant and Pumping Station. To enhance these facilities, the Commission has undertaken major capital improvements, including programs implemented from 1962-1966, in 1975 and from 1985-1987. Extensive facilities designed to process residuals generated from the water treatment phase were added in 1975. At present, the Little Falls Filtration Plant has a treatment capacity of 100 MGD and the Pumping Station a transmission capacity of 160 MGD. The Little Falls Water Treatment Plant Upgrade project increased the delivered water capacity of the plant to 100 MGD.

NOTE 1. GENERAL, (continued)

Water from the Passaic River is taken in above Beattie's Dam in Totowa, New Jersey and is subjected to various physical and chemical processes. The Little Falls Water Treatment Plant has finished undergoing an upgrade which will enhance plant performance and expand plant capacity using advanced treatment processes that will meet quality goals for microbials and disinfection byproducts. The existing conventional clarification processes have been replaced by a ballasted flocculation process that provides a high degree of treatment at higher loading rates for varying water qualities. In addition to being more robust, the new process system has a very compact facility layout which has resulted in the achievement of significant construction cost savings. The second phase of the plant upgrade project, which includes installation of ozonation for disinfection which, in conjunction with the upgrade of the existing filters, will significantly improve the quality of water produced while enhancing the ability to control the formation of disinfection byproducts to meet future regulatory requirements. This state-of-the-art treatment plant upgrade was completed in mid-2004.

The entire water treatment and purification process at the Little Falls Filtration Plant is controlled and monitored so that the water delivered will comply with all applicable safe water standards. In addition, the Commission adheres to a rigorous sampling and testing protocol at its Little Falls laboratory facilities. The water produced at each stage of the treatment and purification process is monitored continuously for various characteristics to provide assurance of water quality. This surveillance program also extends to regular sampling and testing of water in the Passaic River, the tributary streams that flow into the river, the Commission's reservoirs, the Wanaque North water supplied by NJDWSC and the distribution system. As a result, the Commission has only been required on two occasions since 1981 to notify its customers of minor violations of water standards established by Federal or state law. The Commission promptly corrected the conditions which give rise to such violation.

The water which the Commission receives from the Wanaque North system is treated by the NJDWSC at its filtration works.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies:

A. Basis of Presentation

The financial statements of the Passaic Valley Water Commission have been prepared in accordance with generally accepted accounting principles (GAAP) applicable to enterprise funds of state and local governmental units. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the governing body has decided that the periodic determination of revenues earned, expenses incurred, and or net income is appropriate for capital maintenance, public policy, accountability or other purposes. The Governmental Accounting Standards Board GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Commission also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, provided they do not conflict with or contradict GASB pronouncements. The significant of the Commission's accounting policies are described below.

On January 1, 2004, the Commission adopted the provision of Governmental Accounting Standards Board Statement No. 34, "Basic Financial Statements - and Management Discussion and Analysis - for State and Local Governments." Statement No. 34 established standards for external financial reporting for all state and local governmental entities, which includes a statement of net assets, a statement of changes in net assets, and a statement of cash flows. It requires the classification of net assets into three components-invested in capital assets, net of related debt: restricted: and unrestricted. These classifications are defined as follows:

• Invested in capital assets, net of related debt - This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are any significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of invested in capital assets, net of related debt. Rather that portion of the debt is included in the same net assets component as the unspent proceeds.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

A. Basis of Presentation, (continued)

- Restricted This component of net assets consists of constraints placed on net assets' use through external constraints imposed by creditors (such as through debt convents), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net assets This component of net assets consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

On January 1, 2004, the Commission also adopted the provisions of Governmental Accounting Standards Board Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions. This statement requires that capital contributions to the Commission be presented as a change in net assets.

The adoption of Statements No. 34 and 33 had little effect on the basic financial statements except for the classification of net assets, the reflection of capital contributions as a change in net assets, and the inclusion of Management's Discussion and Analysis (MD&A) section providing an analysis of the Commission's overall financial position and results of operations.

B. Basis of Accounting

The Passaic Valley Water Commission prepares its financial statements on the accrual basis of accounting in accordance with generally accepted accounting principles. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recognized when the liability is incurred.

C. Grants

Contributions received from the U.S.E.P.A. and N.J.D.E.P. are recorded in the period in which they are awarded.

Grants receivable, if any, represent the total grant awards less amounts collected to date. Grants, if any, not internally restricted and utilized to finance operations are identified as non-operating revenue. Grants externally restricted for non-operating purposes are recorded as contributed capital and identified as grants-in-aid.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

D. Inventories of Materials and Supplies

Inventories are valued at the lower of cost (first-in, first-out basis) or market. Inventories consist primarily of chemicals, pipes, fittings, meters, valves and various other plumbing materials and supplies.

E. Property, Plant and Equipment

Property, Plant and Equipment is stated at cost which includes direct construction costs and other expenditures related to construction. Land is stated at approximate fair market value as of the date it was donated to the Commission.

System construction costs are charged to construction in progress until such time as given segments of the system are completed and placed into operation.

Depreciation is determined on a straight-line basis for all plant and equipment. Depreciation is provided over the following estimated useful lives:

Building and Improvements	20-50 Years
Water Mains and Interceptors	50 Years
Machinery and Equipment	10-20 Years
Furniture and Fixtures	5 Years
Vehicles	5-10 Years

Depreciation on assets acquired with grants-in-aid and contributed capital assets is recorded as a reduction of contributed capital.

A summary of the changes in property, plant and equipment at December 31, 2010 is as follows:

	Balance Dec.31, 2009	Net <u>Additions</u>	<u>Disposals</u>	Balance Dec.31, 2010
Capital Assets	205,861,889	6,978,851		212,840,740
Capital Improvements	75,312,423			75,312,423
Capital Leases	7,087,815			7,087,815
North Arlington Municipal				
Water System	4,309,300			4,309,300
Acquisition Expenses	815,146			<u>815,146</u>
	293,386,573	6,978,851	0	300,365,424
Accumulated Depreciation	(130,819,150)	(8,117,800)	*****	(138,936,950)
Property, Plant and Equipment, Net	162,567,423	(1,138,949)		161,428,474

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

F. Restricted Accounts

In accordance with the bond resolution as amended and supplemented, the Commission has established the following cash and investment accounts for the deposit, in the priority of the order shown as follows, of all revenue received by the Commission:

Construction Account

Proceeds of all new money bond issues for capital improvement and expansion programs for the enhancement and extension of the Commission's water supply system.

Bond Reserve Account

An amount equal to the greatest bond service requirement of any future fiscal year for any bond not covered by bond service insurance.

Bond Renewal and Extension Account

An amount reasonably necessary, with respect to the facilities, for major repairs, renewals and replacements or maintenance not recurring annually.

Operating Reserve Account

An amount to provide a reserve for Operating Fund requirements.

Bond Service Account

An amount equal to unpaid interest and principal during the following fiscal year.

In addition to the accounts required by the 1992 bond resolution, the Commission has established the following additional operational investment accounts:

Contingency and Self-Insurance Reserve Fund

Amounts set aside to provide funds for contingencies concerning the self-insurance requirements of the Commission

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

F. Restricted Accounts, (continued)

Meter Deposits Reserve Fund

Amounts set aside representing meter deposits collected from customers.

In addition to the above, the Commission has also established the following restricted accounts:

Unemployment Compensation Insurance Account

Employee and employer contributions are transferred to this account for payment of unemployment compensation claims paid by the State Department of Labor and billed to the Commission.

G. Unamortized Debt Issue Costs and Debt Discount

Costs in excess of refunded debt incurred in connection with the 1987, 1992 and 2003 bond issues are being amortized over the lives of the issues calculated on a straight-line basis.

Bond issue costs incurred in connection with the 1987, 1992, 2000A, 2001, 2002, 2003 and 2005 bond issues and note issue costs in connection with the 2006 note are being amortized over the lives of the issues calculated on a straight-line basis.

Original issue discount and premium incurred in connection with the 1992, 2003 and 2005 bond issues and the original issue premium incurred with the 1998 and 2003 bond issues are being amortized over the lives of the issues calculated on a straight-line basis.

H. Operating Fund Budget

The budget amounts included in the statement of budget revenues and statement of budget expenditures were approved in accordance with the requirements of the "Local Finance Board" of the State of New Jersey, and were adopted by the Commissioners after legal advertisement and public hearing.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

I. Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J. Accreted Interest on Bonds

The Commission reports the Capital Appreciation Revenue Refunding Bonds, Series 1992 at their original principal amount plus the accretion to the date of the financial statements, which is in accordance with generally accepted accounting principles (GAAP). For budgetary purposes, accreted interest is not recognized as a current period expense because the interest will not be raised in the current budget but will be raised in the years when the bonds mature.

K. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Commission or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

L. Income Taxes

The Commission is exempt by law from federal and state income taxes and, therefore, no provision or liability for income taxes has been included in these financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

M. Reclassifications

Certain reclassifications have been made to the 2009 amounts to conform to the 2010 financial statement presentation. These reclassifications had no effect on the previously reported results of operations for 2009.

N. Impairment of Long-Lived Assets

The Commission has adopted Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of", (SFAS 144). Pursuant to SFAS 144, long-lived assets, or asset groups and certain identifiable intangible assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Determination of recoverability is based on an estimate of undiscounted cash flows resulting from the use of the asset, or asset groups and its eventual disposition. Measurement of an impairment loss for long-lived assets, or asset groups, and certain identifiable intangible assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets, or asset groups and certain identifiable intangible assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell.

O. Recent Accounting Pronouncements

The Commission has not completed the process of evaluating the impact that will result from implementing GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The Statement governs the presentation of fund balances, which in total is the difference between assets and liabilities, into amounts that are non-spendable and amounts that can be spent. This Statement is effective for financial statements for periods beginning after June 15, 2010.

The Government Accounting Standards Board issued <u>GASB Statement No. 55</u>, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. The hierarchy for generally accepted accounting principles establishes what literature or authority that preparers of financial statements should use. The requirements of this Statement will help guide preparers of financial statements for state and local governments to apply all relevant accounting principles found in GASB literature. The Statement is effective immediately and is not expected to change current practice. The Commission is in compliance.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

O. Recent Accounting Pronouncements, (continued)

The Government Accounting Standards Board issued <u>GASB Statement No. 56</u>, Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards. This Statement will incorporate into the GASB literature certain guidance found in the AICPA Statements on Auditing Standards. The Statement addresses three issues not included in the authoritative literature that establishes accounting standards: related party transactions, going concern considerations and subsequent events. The Commission expects that the Statement will improve reporting but will not materially affect current practice. The Statement is effective immediately. The Commission is in compliance.

The Commission has not completed the process of evaluating the impact that will result from implementing GASB Statement No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. This Statement is intended to improve consistency in the measurement and financial reporting of other postemployment retirement benefits ("OPEB") such as retiree health insurance. This Statement amends Statement No. 43, Financial Reporting for Postretirement Benefit Plans Other Than Pension Plans, and Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The Commission will determine if the provisions of Statement No. 57 related to the use and reporting of alternative measurement methods will be applicable for its OPEB plan and financial statement disclosures issued for the period ending May 31, 2012.

The Government Accounting Standards Board issued <u>GASB Statement No. 58</u>, Accounting and Financial Reporting for Chapter 9 Bankruptcies. This Statement is intended to improve consistency in the measurement and financial reporting of OPEB such as retiree health insurance. The Commission has determined that this Statement is not applicable.

The Commission has not completed the process of evaluating the impact that will result from implementing <u>GASB Statement No. 59</u>, *Financial Instruments Omnibus*. This Statement updates and improves standards regarding financial reporting of certain financial instruments and external investment pools. This Statement is effective for periods beginning after June 15, 2010.

The Government Accounting Standards Board issued <u>GASB Statement No. 60</u>, Accounting and Financial Reporting for Services Concession Arrangements. This Statement addresses how to account for and report service concession arrangements (SCAs), a type of public-private or private-public partnership that state and local governments are increasingly entering into. The Commission is currently evaluating the affect, if any, this statement will have on current practice. This Statement is effective for periods beginning after December 15, 2011 and will be applied retroactively for all periods presented.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

O. Recent Accounting Pronouncements, (continued)

The Government Accounting Standards Board issued <u>GASB Statement No. 61</u>, *The Financial Reporting Entity: Omnibus - an amendment to No. 14 and No. 34*. This Statement will improve the information presented about the financial reporting entity, which is comprised of a primary government and related entities (component units). The Commission does not believe this Statement will materially affect its current practice. This Statement is effective for periods beginning after June 15, 2012.

The Government Accounting Standards Board issued <u>GASB Statement No. 62</u>, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 1989 FASB and AICPA Pronouncements. This Statement is effective for periods beginning after December 15, 2011 and will be applied retroactively for all periods presented.

NOTE 3. CASH AND CASH EQUIVALENTS.

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

NOTE 3. CASH AND CASH EQUIVALENTS, (continued)

All collateral must be deposited with the Federal Reserve Bank of New York, The Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.00.

As of December 31, 2010, the Commission's cash and cash equivalents are summarized as follows:

	Money Market/ Checking <u>Accounts</u>		<u>Total</u>
Unrestricted Restricted	1,111,845 <u>35,406,707</u>		1,111,845 35,406,707
•	<u>36,518,552</u>	 :	36,518,552

The carrying amount of the Commission's cash and cash equivalents at December 31, 2010 was \$36,518,552 and the bank balance was \$39,467,749. This entire amount was covered by federal depository insurance and the collateral pool maintained by the banks as required by New Jersey Statutes.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposit may not be returned to it. The Commission's policy is based on New Jersey statutes requiring cash be deposited only in New Jersey based on banking institutions that participate in New Jersey Governmental Depository Protection Act (GUDPA) or in a qualified investment established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. As of December 31, 2010, \$-0- of the Commission's bank balance of \$39,467,749 was exposed to custodial risk.

NOTE 4. INVESTMENTS

Investments are stated at fair value, which is determined using selected bases. The Commission classifies certificates of deposit that have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments. As of December 31, 2010, the Commission had \$-0- invested in certificates of deposit with maturity dates greater than 3 months.

NOTE 4. <u>INVESTMENTS</u>, (continued)

Interest Rate Risk

The Commission does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 40A:5-15.1(a) limits the length of time for most investments to 397 days.

Credit Risk

New Jersey Statutes 40A:5-15.1(a) limits municipal investment maturities to those specified in the Statutes. The type of allowance investments are Bonds of the United States of America or the local unit or school districts of which the local unit is part of: obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk

The Commission places no limit on the amount it may invest in any one issuer.

NOTE 5. NEW JERSEY ENVIRONMENTAL INFRASTRUCTURE TRUST

The Commission issued bonds in 2001, 2002, 2007 and 2010 through the Trust to finance the improvement to the treatment facilities. The proceeds of the Bonds are held by the Trust until the Commission expends funds on the project. The Commission then submits for reimbursement of these expenditures from the Trust. The following is the remaining amount of funds to be received by the Trust:

	Balance		Balance
	Dec.31, 2009	<u>Issued</u>	Dec.31, 2010
NJEIT - Fund & Trust	1,074,783	<u>5,596,293</u>	<u>6,671,076</u>

These funds shall be disbursed to the Commission under the terms of its loan agreements with the New Jersey Environmental Infrastructure Trust.

NOTE 6. LONG-TERM DEBT

The Commission has issued and has outstanding the following bonds as of December 31, 2010 and 2009:

NOTE 6. LONG-TERM DEBT, (continued)

Series 1992 Capital Appreciation Bonds

The 1992 Bonds maturing June 30, 1992 through December 15, 2012, inclusive (the "Capital Appreciation Bonds") were dated and bear interest from the date of issuance and will mature in the amounts equal to the maturity amounts which are set forth in the following table plus interest compounded on each June 15, and December 15, commencing on June 30, 1992 in each year until maturity. The interest on the Capital Appreciation Bonds will be payable as part of the maturity amount only at maturity.

The 1992 Bonds that mature in years 2010-2012 are capital appreciation bonds that are accreting principal on an annual basis. The amount of accretion that has been accrued as of December 31, 2010 is \$5,753,523. This amount is recorded on the Commission's books as an increase in interest expense and bonds payable. The Commission has been providing for this level debt service payment in its current rate structure.

Principal and interest due on outstanding 1992 bonds to maturity is as follows:

		Dec. 31,		
		2010	Accreted	
	Original	Accreted	Principal	Principal
<u>Year</u>	Principal	<u>Principal</u>	Remaining	at Maturity
2011	756,089	1,750,734	924,266	2,675,000
2012	<u>708,554</u>	1,640,663	1,034,337	2,675,000
	1,464,643	<u>3,391,397</u>	<u>1,958,603</u>	<u>5,350,000</u>

Series 2001A&B NJ Environmental Infrastructure Trust Bonds

In 2001, the Commission implemented major capital improvements at its Little Falls Treatment Plant ("the Project") to comply with the Safe Drinking Water Act ("SDWA"). The Commission initially funded this project with two loans from the New Jersey Environmental Infrastructure Trust ("NJEIT").

NOTE 6. LONG-TERM DEBT, (continued)

Series 2001A&B NJ Environmental Infrastructure Trust Bonds, (continued)

The first loan (Series 2001A) was for \$7,445,600, of which \$3,865,600 is a non-interest bearing Fund Loan payable in semi-annual installments and due August 1, 2021. The remaining portion of the 2001A loan was a \$3,865,000 Trust Loan payable in semi-annual installments and due August 1, 2021.

At December 31, 2010, the Trust and Fund portions payable were as follows:

	Series 20	001A (Project S340)	322-02)	
	<u>Trust P</u>	ortion	<u>Fund</u>	
<u>Year</u>	Principal	<u>Interest</u>	<u>Portion</u>	<u>Total</u>

Series 2002A&B Environmental Infrastructure Trust Bonds

Due to unanticipated cost increases in the Project, the Commission requested and received additional funding from the NJEIT in the form of two additional loans. These loans were issued in December 2002 and are due August 21, 2021.

The first loan (Series 2002A) was for \$8,227,632, of which \$4,227,632 is a non-interest bearing Fund Loan payable in semi-annual installments and due August 1, 2021. This Fund Loan was adjusted \$1,046,046 by the NJ Bureau of Administration and Management for the remaining unspent portion of the Project (adjusted from the back-end of the loan). The remaining portion of the 2002A loan was a \$4,000,000 Trust Loan payable in semi-annual installments and due August 1, 2021.

NOTE 6. LONG-TERM DEBT, (continued)

Series 2002A&B Environmental Infrastructure Trust Bonds, (continued)

At December 31, 2010, the Trust and Fund portions were as follows:

Series 2007A&B NJ Environmental Infrastructure Trust Bonds

On November 9, 2007, the Commission funded the improvements to New Jersey Environmental Infrastructure Trust \$3,615,780. These bonds were issued for the purpose of: (i) the cleaning and lining water mains in Paterson; (ii) a water transmission main in Lodi; (iii) the retirement of the outstanding Series 2001A&B and Series 2002A&B Bonds (Trust portion only, adjusted for the remaining unspent portion via savings credit); (iv) the funding of the Bond Reserve Requirement; and (v) costs of issuance.

NOTE 6. LONG-TERM DEBT, (continued)

Series 2010A&B NJ Environmental Infrastructure Trust Bonds

On October 5, 2010 and November 23, 2010, the Commission funded the improvements to New Jersey Environmental Infrastructure Trust \$5,390,000. These bonds were issued to provide for, among other things (1) the financing of costs of renovations, additions and improvements to the System; including specifically (i) cleaning and lining over 22,000 linear feet of 6", 8" and 12" water mains in the City of Passaic; (ii) approximately 5,100 linear feet of new 12" ductile iron water main to improve the hydraulics of their distribution system; and (iii) replacement of approximately 3,000 linear feet of 12" water main; (2) to provide security for loan(s) from the New Jersey Environmental Infrastructure Trust; and (3) the payment of the costs associated with the issuance of such bonds. Of this \$5,390,000, \$1,357,500 of principal was forgiven by a grant through the American Recovery and Reinvestment Act ("ARRA") of 2009.

At December 31, 2010, the outstanding principal and interest on the Series 2010A&B NJEIT Bonds is as follows:

		Series 2010A&B

2025	<u> 585,000</u>	<u>16,088</u>	601,088
	<u>2,790,000</u>	<u>191,700</u>	2,981,700

NOTE 7. CAPITALIZED LEASE PAYABLE - LODI WATER SYSTEM

In July of 1997, a 30 year lease agreement between the Commission and the Borough of Lodi took effect. The lease agreement conveyed the real and personal property, plants, structures, including reservoirs, pumping stations, water distribution systems, sources of water supplies, connections, rights of flowage or diversion and all other rights therein owned by Lodi in connection with its water distribution system (hereinafter collectively referred to as the System) to the Commission. The lease also requires the Commission to manage, operate and maintain the System in an efficient and economical manner in accordance with its terms and otherwise in accordance with prudent industry and utility practices.

The lease required payments to be made of \$3,200,000 in 1997, \$2,500,000 in 1998 and \$750,000 in 1999, followed by a succession of annual payments beginning in the year 2001 of \$45,000 rising to approximately \$97,000 in the year 2027.

NOTE 7. CAPITALIZED LEASE PAYABLE - LODI WATER SYSTEM., (continued)

The lease also requires the Commission to make capital expenditures and improvements to the System in each year the lease is in effect beginning with approximately \$95,000 required in 1997 and approximately \$103,000 required in 1998, and increasing each year by various amounts to a level of approximately \$250,000 required in the year 2026. As of December 31, 2008, the Commission has expended in excess of the required capital improvements.

The lease obligation has been funded by the issuance of the 1997A Bonds in the total amount of \$7,135,000 and has been recorded in the financial statements at its discounted value using the same 5% interest rate of the 1997A Bonds.

The lease contains options for the Borough of Lodi to terminate the lease after either ten (10) years or after twenty (20) years by paying the Commission an amount sufficient to pay or defease the outstanding principal amount and premium, if any, of the 1997A Bonds then outstanding. The lease also requires the Borough of Lodi to reimburse to Commission for all capital expenditures upon termination.

Total future minimum lease payments under lease obligations at December 31, 2010 was as follows:

	Required	Present	Present Value
	Lodi Lease	Value	of Lodi Lease
<u>Year</u>	<u>Payments</u>	<u>Factor</u>	<u>Payable</u>

NOTE 8. PENSION PLAN

Description of Plan

All required employees of the Commission are covered by the Public Employees' Retirement System which has been established by state statute and is administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System. This report may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System was established in January, 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school district or public agency provided the employee is not required to be a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 8-10 years of service and 25 years for health care coverage. Members are eligible for retirement at age 60 with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service. Early retirement is available to those under age 60 with 25 or more years of credited service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on contributions. In case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Chapter 103, P.L. 2007 amended the early retirement reduction formula for members hired on or after July 1, 2007 and retiring with 25 years of service to be reduced by 1% for every year between age 55 and 60, plus 3% for every year under age 55.

Chapter 89, P.L. 2008 increased the PERS eligibility age for unreduced benefits from age 60 to age 62 for members hired on or after November 1, 2008; increased the minimum annual compensation required for membership eligibility for new members. Also, it amended the early retirement reduction formula for members hired on or after November 1, 2008 and retiring with 25 years of service to be reduced by 1% for every year between age 55 and 62, plus 3% for every year under age 55.

NOTE 8. PENSION PLAN, (continued)

Public Employees' Retirement System (PERS), (continued)

Chapter 1, P.L. 2010, effective May 21, 2010, changed the membership eligibility criteria for new members of PERS from the amount of compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to 1/60 from 1/55, and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined as 1/7th of the required amount, beginning in fiscal year 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Significant Legislation

On March 17, 2009, the legislative of the State of New Jersey enacted Public Laws 2009, c.19(S-21) the "Pension Deferral Program". This law allows the Division of Pensions and Benefits to provide non-state government pension system employers the option of paying their full amount, or an amount that reflects a 50 percent reduction of the normal and accrued liability component of the Public Employees' Retirement System obligation for payment due to the State Fiscal Year ending June 30, 2009. The amount deferred will be repaid starting in April 2012 over a 15-year period at 8½ percent. The amount will fluctuate based on pension system investment earnings on the deferred amount. The local employer is allowed to payoff the obligation at any time prior to April 2012.

The Passaic Valley Water Commission opted not to defer their pension obligation.

NOTE 8. <u>PENSION PLAN</u>, (continued)

Contribution Requirements

The contribution policy is set by laws of the State of New Jersey and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The pension funds provide for employee contributions based on 5.0% for PERS of the employee's annual compensation, as defined through June 30, 2007. Under Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, the PERS and employee contribution rate will increase to 5.5 percent effective July 1, 2007. Employers are required to contribute at an actuarially determined rate in all Funds except the SACT. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits in the PERS. In the PERS, the employer contribution includes funding for post-retirement medical premiums.

The Commission's contribution to the Public Employees' Retirement System, equal to the required contributions for each year, were as follows:

Year ended	
December 31,	<u>Amount</u>
2010	1,292,162
2009	1,182,608
2008	692,488

Defined Contribution Retirement Program

The Defined Contribution Retirement Program (DCRP) was established on July 1, 2007 for certain public employees under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007. The program provides eligible members, with a minimum base salary of \$1,500 or more, with a tax-sheltered, defined contribution retirement benefit, in addition to life insurance and disability coverage. The DCRP is jointly administered by the Division of Pensions and Benefits and Prudential Financial.

If the eligible elected or appointed official will earn less than \$5,000 annually, the official may choose to waiver participation in the DCRP for that office or position. The waiver is irrevocable.

NOTE 8. PENSION PLANS, (continued)

<u>Defined Contribution Retirement Program</u>, (continued)

This retirement program is a new pension system where the value of the pension is based on the amount of the contribution made by the employee, employer and through investment earnings. It is similar to a Deferred Compensation Program where the employee has a portion of tax deferred salary placed into an account that the employee manages through investment option provided by the employer.

The law requires that three classes of employees enroll in the DCRP detailed as follows:

All elected officials taking office on or after July 1, 2007, except that a person who is reelected to an elected office held prior to that date without a break in service may retain in the PERS. A Governor appointee with advice and consent of the Legislature or who serves at the pleasure of the Governor only during that Governor's term of office.

Notwithstanding the foregoing requirements, other employees who hold a professional license or certificate or meet other exceptions are permitted to join or remain in PERS.

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION

On December 15, 2007, the Commission implemented the Governmental Accounting Standards Board Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement provides a more complete, reliable and decision-useful financial statement in regards to the costs and financial obligations that governments occur when they provide postemployment benefits other than pensions (OPEB) as part of the compensation for services rendered by employees.

The Commission currently vests employees for lifetime prescription drug coverage after 20 years of service. The Water Commission provides for no post-retirement death benefits. At the age at which the employee may begin to receive retirement benefits under the Water Commission's pension plan, the employee may retire and retain their health insurance coverage. Depending on age and years of service at retirement, the retiree may have to pay for some or all of the coverage. The Water Commission will contribute 100% for those individuals (and their spouses) retired with 25 or more years of service. Retirees with less than 25 years of service may elect coverage at the group rates with 0% funded by the Water Commission.

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION, (continued)

Plan Description

The Passaic Valley Water Commission sponsors a single-employer post-retirement medical plan that provides medical benefits to eligible retirees and their spouses.

Funding Policy

To be determined by Passaic Valley Water Commission. Valuation calculations have been determined under the presumption that the Commission will eventually pre-fund these obligations.

Annual OPEB Cost and Net OPEB Obligation

The Water Commission's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. Under State guidelines, the Commission is required to obtain an actuarial calculation every two years. The following table shows the components of the Commission's last annual OPEB cost (for the 2010 fiscal year), the amount actually contributed to the plan, and changes in the Commission's net OPEB Obligation.

Components of Net OPEB Obligation for 2010

Annual Required Contribution	1,655,078
Interest on Net OPEB Obligation	102,206
Adjustment to Annual Required Contribution	(109,932)
Annual OPEB Cost (Expense)	1,647,352
Contributions Made or Accrued	(988,242)
Increased in Net Obligation	<u>659,110</u>
Net OPEB Obligation (BOY)	1,362,742
Net OPEB Obligation (EOY)	2,021,851

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION, (continued)

The Water Commission's last annual OPEB cost, the last percentage of annual OPEB cost contributed to the plan, and the net OPEB Obligation for 2008 was as follows:

		Percentage of		
Fiscal Year	Annual OPEB	OPEB Cost	Net OPEB	Discount
<u>Ended</u>	<u>Cost</u>	Contributed	Obligation	<u>Rate</u>
12/31/2010	1,647,352	59.99%	2,021,851	7.50%
12/31/2009	1,738,579	60.70%	1,362,742	7.50%
12/31/2008	1,738,579	60.70%	683,308	7.50%

In 2010 the Commission designated \$654,543 in net assets to fund anticipated OPEB obligations. This amount was an estimate by management based on their most recent actuarial calculations of the Net OPEB Obligation.

Funded Status and Funding Progress

As of January 1, 2010, the most recent actuarial date, the plan was 0% funded. The actuarial accrued liability for benefits was \$23,679,371 and the actuarial value of assets was \$0 resulting in an unfunded actuarial accrued liability (UAAL) of \$23,679,371. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$13,511,000 and the ratio of the UAAL to the covered payroll was 175%.

Actuarial valuations of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION, (continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on substantive plan (the plan as understood by the employer and the plan members) and includes the type of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2010 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 7.5% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan assets at the valuation date, and an annual healthcare cost trend rate of 8% initially for 2008, reduced by decrements to an ultimate rate of 5% after three years. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at January 1, 2010 was 30 years.

NOTE 10. AMOUNTS REQUIRED BY BOND RESOLUTIONS

The following cash and investment accounts are required by the Commission's bond resolutions:

Current Debt Service

The Commission's 1992 General Bond Resolution states that the Bond Service Requirement equal the amount of unpaid interest or principal, plus, all interest and all principal payable during a fiscal year. At December 31, 2010 and 2009, the amounts required by bond resolution were as follows:

2010 2009

Cash and Investments on Hand 2,472,233 2,607,837

NOTE 10. AMOUNTS REQUIRED BY BOND RESOLUTIONS, (continued)

Debt Service Reserve

The 1992 General Bond Resolution states that the Commission's Bond Reserve Requirement equal the lesser of (I) 10% of the aggregate principal amount of Bonds upon original issuance or (ii) the amount equal to the Maximum Annual Debt Service. In 2005 and 2007, the Commission purchased bond service insurance policies covering the 1992, 2001A&B, 2002A&B, 2003, 2005, 2007A&B and 2007C Bonds. As a result, the Commission has amended the applicable bond resolution to allow for the use of insurance to meet it's future debt service requirement. At December 31, 2010, the amounts required by bond resolution were as follows:

	Debt Service Reserve <u>Requirement</u>	Maximum Bond Surety Coverage
Series 1992 CAB Bonds	535,000	2,140,000
Series 2000A Bonds	645,865	645,865
Series 2001A&B NJEIT Bonds	4,036,896	4,384,887
Series 2002A&B NJEIT Bonds	380,034	631,874
Series 2003 Refunding Bonds	3,431,500	3,588,000
Series 2005 Refunding Bonds	923,500	941,000
Series 2007A&B NJEIT Bonds	168,904	250,000
Series 2007C Bonds	545,500	500,000
Series 2009A Bonds	535,500	
Series 2009B Bonds	1,218,500	
Series 2009C Bonds	2,095,500	
Series 2010A&B NJEIT Bonds	296,973	
Series 2010C Bonds	279,000	

In addition to the insurance policies, the Commission has reserved \$12,888,847 in cash and cash equivalents for the purpose of funding future debt service requirements.

NOTE 10. AMOUNTS REQUIRED BY BOND RESOLUTIONS, (continued)

Renewal and Extension Reserve

The 1992 General Bond Resolution states that the Commission's Renewal and Extension Reserve equal the amount reasonably necessary as a reserve for expenses to the System for major repairs, renewals, replacements, extensions, enlargements, improvements or maintenance items of a type not recurring annually or at shorter intervals. At December 31, 2010 and 2009, the amounts required by bond resolution were as follows:

	<u>2010</u>	<u>2009</u>
Cash and Investments on Hand Renewal and Extension Requirement	3,000,001 3,000,001	3,002,449 3,002,449
Excess (Deficit)		0-

Operations Reserve

The 1992 General Bond Resolution states that the Commission's Operating Fund Reserve equal an amount necessary to provide one month payment for Operating Expenses for the period beginning on such withdrawal date and ending on a date which is one month subsequent thereto. At December 31, 2010 and 2009, the amounts required by bond resolution were as follows:

	<u>2010</u>	<u>2009</u>
	·	
Cash and Investments on Hand	<u>7,184,235</u>	<u>7,185,634</u>

Coverage Covenant

The Commission's 1992 General Bond Resolution also includes a covenant that, among other things, requires the Commission to estimate, make, impose, charge, revise and collect revenues for each fiscal year sufficient (i) to pay all operating expenses of the Commission in each fiscal year, (ii) provide an amount equal to 110% of the aggregate bond service requirement and sinking fund requirement for such fiscal year and (iii) provide an amount so that the Operating Fund Reserve Account and the Renewal and Extension Account are at their respective requirements.

NOTE 10. AMOUNTS REQUIRED BY BOND RESOLUTIONS, (continued)

At December 31, 2010, the bond service coverage ratio was calculated as follows:

	<u>2010</u>	<u>2009</u>
Net Operating Income (including interest and finance charges, excluding depreciation)	17,621,924	15,608,577
Bond Service Requirement	14,923,169	13,796,752
Debt Service Coverage Ratio	1.18	1.13

All principal and interest payments were made on a timely basis during the 2010 fiscal year and through the date of this report.

NOTE 11. COMMITMENTS AND CONTINGENT LIABILITIES

As of December 31, 2010, the Commission's general counsel advises us that there is no pending litigation that would have a material effect on the Commission's financial statements except as follows:

Borough of North Arlington - The Complaint in this matter, filed on December 31, 2010, seeks to rescind the December 31, 2004 purchase by the Commission of the Borough's former municipal waste system. Alternatively, it seeks to reform the Purchase Agreement to increase the purchase price on the ground of mutual mistake or the Borough's unilateral mistake with respect to the purchase price. In addition, the Complaint seeks damages in an unspecified amount based on the Commission's allegedly excessive rates and on the manner in which the Commission has maintained its system in the Borough, and it seeks to recover from the Commission real property taxes on Commission property that were never assessed by the Borough. The Commission moved on March 22, 2011 to dismiss the Complaint, and the motion is pending.

Beatties Dam Flood Claims - Notices of Multiple Claims have been received by the Passaic Valley Water Commission which allege that hte Passaic Valley Water Commission was palpably unreasonable in the operation of its flood gates at Pompton Lakes Dam and/or improper design, maintenance and construction of Beatties dam. The allegations involve claims of property damage to numerous homeowners and business owners as a result of significant flooding. Notices of Claims have been served by the Law Firms of Vivino and Vivino by letter dated June 10, 2010, The Law Firm of August R. Soltis, Esq. By letters dated June 7, 2010 and June 10, 2010 alleging representation of approximately 116 claimants. The Notice of Claim from the Vivino firm seeks damages of \$1,500,000.00. The basis for the damages claim has not been substantiated. The amounts of the total claims have yet to be determined. Matters are not yet in suit.

NOTE 12. RISK MANAGEMENT

The Passaic Valley Water Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission currently has Property, Liability, Worker's Compensation, Public Officials Liability and Public Employee Dishonesty insurance purchased through various policies. There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage.

NOTE 13. DEFERRED COMPENSATION PLAN

Employees of the Passaic Valley Water Commission may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Government). The deferred compensation plan is available to all employees of the Commission. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency. The deferred compensation plan is administered by an unrelated financial institution. The employees' contributions to the Plan and all income attributable to those amounts have been transferred to the exclusive benefit of the participating employees and their beneficiaries.

NOTE 14. OTHER MATTERS

The Commission has a lease agreement with the North Jersey District Water Supply Commission/United Water New Jersey Company for the use of an intake pumping station located in Wayne. Rent is \$1 per annum plus an apportioned share, based upon square footage utilized by the Commission, of maintenance, utilities, real estate taxes and fire insurance. The approximate annual cost is \$30,000. The term of the lease is the same term as the Diversion Grant from the State of New Jersey to the North Jersey District Water Supply Commission/United Water New Jersey Company. In the event that the grant is renewed or extended, the term of the lease shall also be renewed or extended for a like period of time.

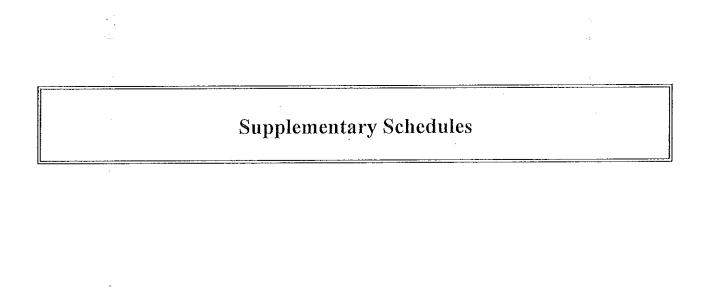

The Commission has been named as a defendant or third-party defendant in various claims for damages, and claims by several administrative employees regarding employment, health hazards and pay discrimination. Management is vigorously defending against these claims and believes the contingency and self-insurance reserve funds should be sufficient to cover any unfavorable decisions.

NOTE 15. DESIGNATION OF UNRESTRICTED NET ASSETS

The Commission maintains funds that, although may be spent for any lawful purpose by the Authority, have been designated by the Board as follows:

	<u>2010</u>	<u>2009</u>
Designated for OPEB Obligation Designated for Self-Insurance	2,021,851 608,084	1,367,308 608,084
Total Designated - Unrestricted	<u>2,629,935</u>	1,975,392

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Chairman and Members of the Passaic Valley Water Commission 1525 Main Avenue Clifton, New Jersey 07011

We have audited the financial statements of the Passaic Valley Water Commission as of and for the year ended December 31, 2010, and have issued our report thereon dated May 4, 2011. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Passaic Valley Water Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Passaic Valley Water Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effective of the Passaic Valley Water Commission's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses.

Honorable Chairman and Members of the Passaic Valley Water Commission Page 2.

As noted in the accompanying schedule of findings and questioned costs, we consider the following to be significant deficiencies:

- Inadequate procedures for the monitoring of account balances and significant account fluctuations.
- · Evidence of failure to properly maintain fixed assets schedule,

We did not consider the significant deficiencies noted above to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Passaic Valley Water Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed several instances of noncompliance or other matters that we have reported to management in our report entitled "Comments and Recommendations" (Findings 2010-3, 2010-4, 2010-5, 2010-6 and 2010-7).

This report is intended solely for the information of governing body, management, the Division of Local Government Services, Department of Community Affairs, State of New Jersey, Federal Awarding Agencies and Pass Through Entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Chairman and Members of the Passaic Valley Water Commission 1525 Main Avenue Clifton, New Jersey 07011

Compliance

We have audited the compliance of the Passaic Valley Water Commission with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the fiscal year ended December 31, 2010. The Passaic Valley Water Commission's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal program is the responsibility of the Passaic Valley Water Commission's management. Our responsibility is to express an opinion on the Passaic Valley Water Commission's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations". Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Passaic Valley Water Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Passaic Valley Water Commission's compliance with those requirements.

Honorable Chairman and Members of the Passaic Valley Water Commission Page 2.

In our opinion, the Passaic Valley Water Commission complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal program for the fiscal year ended December 31, 2010.

Internal Control Over Compliance

The management of the Passaic Valley Water Commission is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Passaic Valley Water Commission's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal controls over compliance. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal controls over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of the management and the New Jersey State Department of Community Affairs, other state and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Fendi, W. Camble + Can, P.A.

NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS YEAR ENDED DECEMBER 31, 2010

NOTE 1. GENERAL

The accompanying Schedule of Expenditures of Federal and State Awards present the activity of all federal and state award programs of the Passaic Valley Water Commission. The Commission is defined in Note 1 to the Commission's basic financial statements. All state awards received directly from state agencies, as well as state financial assistance passed through other government agencies is included on the Schedule of Expenditures of State Financial Assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Awards and Financial Assistance are presented on the accrual basis of accounting. These bases of accounting are described in Notes 2(A) to the Commission's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

Awards and financial assistance are reported in the Commission's basic financial statements on a GAAP basis as follows:

	Grants Receivable	Grants	Funds	Grants Receivable
	Dec.31, 2009	Awarded	Received	Dec.31, 2010
Federal Programs:				
U.S. Department of Transportation:				
Highway Planning and Construction Grants		1,919,487	1,919,487	
U.S. Department of Environmental Protection:				
Capitalization Grants for Clean Water				
Revolving Funds	889,832	2,715,000		3,604,832
State Programs:				
N.J. Department of Environmental Protection:

GENERAL COMMENTS

Contracts and Agreements Required to be Advertised Per N.J.S. 40A:11-3

N.J.S.A. 40A:11-2 contains definitions for terms used throughout N.J.S.A. 40A:11-1 et seq. and was amended under P.L. 1999, c.440. It includes as subsection (23) the term 'competitive contracting', which is defined as "the method described in sections 1 through 5 of P.L. 1999, c.440 (C.40:11-4.1 through C.40A:11-4.5) of contracting for specialized goods and services in which formal proposals are solicited from vendors, formal proposals are evaluated by the purchasing agent or counsel; and the governing body awards a contract to a vendor or vendors from among the formal proposals received."

N.J.S.A. 40A:11-3 was amended with P.L. 1999, c.440 to raise the bid threshold and require award by governing body resolution. "When the cost or price of any contract awarded by the purchasing agent in the aggregate does not exceed in a contract year the sum of \$36,000 (prior to July 1, 2010, the amount was \$29,000), the contract may be awarded by a purchasing agent when so authorized by ordinance or resolution as appropriate to the contracting unit, of the governing body of the contracting unit without public advertising for bids and bidding therefore, except that the governing body may adopt an ordinance or resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations."

N.J.S.A. 40A:11-15 was amended with P.L. 1999, c.440 to extend the base contract period. "Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to paragraph (1) of subsection (a) of N.J.S.A. 40A:11-5 may be awarded for a period not exceeding 12 consecutive months.

The governing body of the Commission has the responsibility of determining whether the expenditures in any category will exceed the statutory threshold within the contract year. Where question arises as to whether any contract or agreement might result in violation of the statute, the opinion of the Commission's attorney should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed. No violations were discovered.

Our examination of expenditures revealed no individual payment, contract or agreement "for the performance of any work or the furnishing or hiring of any materials or supplies" in excess of the statutory thresholds where bids had not been previously sought by public advertisement or where a resolution had previously been adopted under the provisions of N.J.S.A. 40A:11-6.

Our review of the Commission's minutes indicated that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 40A:11-5.

GENERAL COMMENTS, CONTINUED

FINDING: 2010-1*

STATEMENT OF CONDITION

Inadequate procedures for the monitoring of account balances (in regards to budgeted line items) and significant account fluctuations.

CRITERIA

Internal controls should be designed to assure that ongoing monitoring occurs during the course of normal operations. Monitoring should be performed continually and be ingrained in the agency's operations. This includes regular management and supervisory activities, comparisons, and other actions people take in performing their duties.

EFFECT

Certain expense accounts in the general ledger occasionally exceed amounts budgeted and show significant fluctuations in comparison to the prior year.

CAUSE

There could be major fluctuations between prior and current year due to changes in operations, but all parties should be aware of them as they happen. In the past, the Accounting Department would code all the expenses posted to the general ledger. Currently, each department is responsible for the coding of its own expenses.

RECOMMENDATION

The Accounting Department and each department should be aware of budgeted appropriations and major account fluctuations during the year and should be able to explain them. Additionally, the Accounting Department should review the coding of expenses posted to the general ledger during the year.

MANAGEMENT'S RESPONSE

In 2011, the Accounting Department began monitoring account balances on a regular basis. Management believes this finding will be corrected during the new fiscal period.

GENERAL COMMENTS, CONTINUED

FINDING: 2010-2*

STATEMENT OF CONDITION

Evidence of failure to properly maintain an itemized fixed assets schedule.

CRITERIA

Governmental entities should maintain a fixed asset list providing the cost and description of property and equipment, as well as any depreciation previously expensed against such listed assets. This list should be updated regularly to include purchases of new capital items and exclude capital assets that have been disposed of or replaced.

EFFECT

Absent or inadequate controls over the safeguarding of assets.

CAUSE

Unknown.

RECOMMENDATION

The Commission should maintain a fixed asset list providing the cost and description of its property and equipment, as well as any depreciation previously expensed against such listed assets.

MANAGEMENT'S RESPONSE

Management recognizes the importance of maintaining an itemized fixed asset schedule and is investigating possible solutions to this problem.

GENERAL COMMENTS, CONTINUED

FINDING: 2010-3*

STATEMENT OF CONDITION

Allocation of the "Administration" and "Cost of Providing Service" appropriations from the Commission's budget does not agree with the budget filed with the Department of Community Affairs (DCA).

CRITERIA

For every budget, operating appropriations shall be itemized as to salary and wages, fringe benefits and other expenses and further classified as to administration and cost of providing service; and include total principal payments on debt service in lieu of depreciation.

EFFECT

The Commission's itemized budget does not agree with the allocation from the DCA budget.

CAUSE

The Commission prepares it's DCA budget using a percentage to allocate total appropriations, not the actual itemized budget.

RECOMMENDATION

The Commission should allocate DCA budget appropriations based on their itemized budget.

MANAGEMENT'S RESPONSE

Management plans to review and correct its budget preparation process.

GENERAL COMMENTS, CONTINUED

FINDING: 2010-4

STATEMENT OF CONDITION

The Commission has old accounts payable balances on their system that have not been reviewed for accuracy by management.

CRITERIA

Liability accounts should represent obligations due from the Commission at the closing date of a financial statement.

EFFECT

Liabilities are possibly overstated.

CAUSE

Unknown.

RECOMMENDATION

The Commission should review all old accounts payable balances.

MANAGEMENT'S RESPONSE

Management began reviewing and correcting old accounts payable balances and will continue to do so throughout 2011.

GENERAL COMMENTS, CONTINUED

FINDING: 2010-5*

STATEMENT OF CONDITION

Capital expenditures were made without a budgetary capital line item.

CRITERIA

N.J.A.C. 5:31-2.2 states that no authority shall make appropriations, authorize expenditures or adopt a security agreement for a capital project unless its provisions are in agreement with a previously adopted capital budget, temporary capital budget or amended capital budget.

EFFECT

The Commission is not in compliance with N.J.A.C. 5:31-2.2.

CAUSE

Unknown.

RECOMMENDATION

A resolution amending the capital budget should be made prior to capital expenditure.

MANAGEMENT'S RESPONSE

Management believes that certain capital expenditures were originally budgeted for; however, not allocated correctly due to restrictions in the current accounting software.

GENERAL COMMENTS, CONTINUED

FINDING: 2010-6*

STATEMENT OF CONDITION

The Commission is not depositing employee's unemployment contributions (SUI) into a separate trust fund.

CRITERIA

Entities who elect to fund SUI under the Benefit Reimbursement Method withhold a portion of the employee's contributions in a separate trust fund rather than submit directly to the State. As unemployment claims arise, the State bills the government directly and amounts are paid directly through the trust account.

EFFECT

The unemployment account is not properly utilized.

CAUSE

The Commission deposited all SUI contributions and paid all claims through the general operating accounts and were unaware that activity had to go through a separate individual trust.

RECOMMENDATION

All employee unemployment contributions should be deposited into a separate trust. Additionally, all claims should be paid or funded through the unemployment trust.

MANAGEMENT'S RESPONSE

Employee's unemployment contributions are currently being held in the Commission's payable tax transfer (agency) account. Management plans to examine and make all necessary transfers to resolve this finding.

GENERAL COMMENTS, CONTINUED

FINDING: 2010-7

STATEMENT OF CONDITION

The payroll tax transfer account is not properly reconciled.

CRITERIA

All bank accounts should be reconciled to their respective general ledger accounts on a monthly basis.

EFFECT

There was a \$159,775 unreconciled difference in the Commission's payroll tax transfer account.

RECOMMENDATION

Management should investigate all differences between book and bank balances and make corrections as necessary.

MANAGEMENT'S RESPONSE

In 2010, the Commission transitioned its payroll process from internally generated to use of an outside payroll service. Management believes the unreconciled difference in the payroll tax transfer account resulted from several mispostings during the first few months of transition. The accounting department is currently investigating the source of this difference and will make corrections as necessary.

GENERAL COMMENTS, CONTINUED

A review was performed on all prior year recommendations and corrective action was taken on all items, except those noted with an asterisk "*".

Problems and weaknesses noted in our review were not of such magnitude that they would affect our ability to express an opinion on the financial statements taken as a whole.

Should any questions arise as to our comments or recommendations, or should you desire assistance in implementing our recommendations, do not hesitate to call us.

We wish to thank Passaic Valley Water Commission for their cooperation during the performance of our audit.

Respectfully submitted,

Family W, Callo + Care, P.A.
