Re: Recommendation to Award Project No. 19-P-79 (Re-Solicitation)  
"Construction Phase Professional Services for Replacement  
Drives for PVWC's Morris County Connection Pumps Contract"

**Summary**

It is recommended that Project No. 19-P-79 (Re-Solicitation) "Construction Phase Professional Services for Replacement Drives for PVWC's Morris County Connection Pumps Contract" (the "Project") be awarded to Associated Technology, Inc. of Fairfield, New Jersey (the "Consultant") with reimbursement to be on a Time-and-Materials, Take-and-Pay basis, not to exceed \$160,000.00.

**Background**

PVWC recently awarded a construction contract entitled "Furnish and Install Replacement Drives for Morris County Connection Pumps" to Multi-Phase Electrical Services, Inc. of Closter, New Jersey.

Project 19-P-79 (Re-Solicitation) herein is for professional services to assist PVWC during the construction phase of the above-referenced construction contract, and includes having the consultant provide a resident observer on site on a part-time, on an as-needed, as-requested basis. A portion of the requested professional services would be utilized by PVWC for the consultant to provide supplemental home office oversight and construction administration support on an as-needed, as-requested basis; all as-ordered in writing by PVWC.

Following solicitation to professional services providers under (N.J.S.A. 19:44A-20.7) the "Fair and Open Process Law", on January 10, 2019 only one (1) response was received for Project 19-P-79. In an effort to seek broader participation in the Project, the said response for the Project was subsequently rejected without prejudice at PVWC's February 20, 2019 Commission Meeting, and responses for the Project were re-solicited through a fair and open process in accordance with the Fair and Open Process Law.

In the second solicitation for responses, on March 13, 2019 PVWC received one (1) response to provide professional services (or extraordinary unspecifiable services) for Project No. 19-P-79 (Re-Solicitation) which response has been evaluated by PVWC based on criteria as set forth in the request for responses for the Project.

Associated Technology, Inc. of Fairfield, New Jersey (the "Consultant") was determined to be professionally qualified and capable of performing the required services with respect to the Project and its Response is the most advantageous to PVWC, price and other factors considered. Reimbursement will be on a Time-and-Materials, Take-and-Pay basis, not to exceed the amount set forth below.

Subject to review and approval by PVWC's Law Department, it is recommended that Project No. 19-P-79 (Re-Solicitation) be awarded to Associated Technology, Inc. of Fairfield, New Jersey, with reimbursement to be on a Time-and-Materials, Take-and-Pay basis, not to exceed \$160,000.00.

When the billing amount for actual work performed and costs incurred during the period covered by the invoice is less than \$1,000 the PROFESSIONAL shall add the service and costs to the next billing cycle. To the extent items appearing on invoices presented by PROFESSIONAL are not contested, PVWC will remit payment of the invoice as soon as it can reasonably process same in the normal course of business and barring any failure of systems related thereto or unusual staffing shortages. The PROJECT shall be invoiced separately. Each invoice shall include a breakdown of hours expended along with the names of individual expending said hours, along with a breakdown of charges from subcontractors where applicable and out-of-pocket expenses chargeable to the PROJECT. Re: Contract No. 19-B-4 "Bituminous Materials"

On February 14, 2019, two (2) bids were received by Passaic Valley Water Commission ("PVWC") for Contract No. 19-B-4 "Bituminous Materials".

The lowest responsive, responsible bid submitted for this contract was that of Braen Stone Industries, Inc. (the "Awardee") of Parsippany, New Jersey with respect to said bid in the amount of \$152,400.00.

Notwithstanding solicitation of bids to potential bidders, the Law Department has requested that an explanation be provided regarding why a limited number of bids were received by PVWC for the above-referenced contract.

The advertisement for this Contract and the posting of the said notice on PVWC's website were properly accomplished for the bidding process.

The goods and services specified in the bid documents are not proprietary and in cases where specific products and/or methods are named in the bid documents, the specifications clearly state "or equal" products will be considered if offered by the Contractor.

The bid environment is subject to many factors, many of which are not subject to the direct knowledge or control of PVWC. These specialized services are provided by a relatively limited number of vendors, thereby limiting the number of bidders both qualified and capable of performing the required Work and willing to satisfy PVWC's public entity bidding requirements.

Based on the above and subject to review and approval by PVWC's Law Department, it is recommended that Contract 19-B-4 be awarded to the Awardee in the total amount of their bid.
