Applications must be mailed to or dropped off at:
1525 Main Avenue, Clifton, NJ 07011
Attn: Krystle Morales; 973-340-4339
Electronic application submissions will not be processed.

Briefly Describe the Project (specifically with regard to the building use and water service):

All fire and domestic service lines on private property shall be pressure tested, disinfected, flushed and bacteriological tests are to be performed by the owner or a representative of the owner. The PVWC Engineering Department shall witness all pressure tests performed on the private service lines and shall receive all copies of the bacteriological testing results prior to the water being turned on.

Passaic Valley Water Commission (PVWC) will install your service line from the main to the curb. All lines from the curb to the building and/or the meter location are to be installed, owned and maintained by the property owner. Installation may be performed by the owner or a representative of the owner and is subject to an inspection by PVWC in addition to Local Building Department Officials. If requested, PVWC does provide an installation service from curb to building, for water services up to 2" in size, which is available to all customers. Full payment is required prior to commencement of any work.

By requesting service, the applicant agrees to the terms, policies, and standards of the PVWC.

Full payment is required to be attached to this application in the form of a check or money order in order to schedule your installation.

Please refer to PVWC's Field Service Rate Sheet for information on required fees.
