Building Use: _____ (Type of Business)

Passaic Valley Water Commission (PVWC) will install your service line from the main to the curb at a nominal fee. All lines from the curb to the building and/or the meter location are to be installed, owned and maintained by the property owner. PVWC can provide this service at a nominal fee. Installation may be by the owner or a representative of the owner and are subject to an inspection by PVWC in addition to State and Local Health Department Officials. PVWC does provide an installation service, for water services up to 2" in size, which is available to all customers. Full payment is required prior to commencement of any work if you choose to have your line installed by PVWC. Please see our fee schedule below and attach your check or money order to this application in order to schedule your installation

All domestic commercial and industrial water services are required to install an approved backflow device directly after the water meter. This device shall be a testable double check valve or a reduced pressure zone backflow device. The determination as to which device shall be installed shall be made by the PVWC Engineering Department, from the information provided by the applicant about the building occupancy use.

By requesting service, the applicant agrees to the terms, policies and standards of Passaic Valley Water Commission (PVWC).

Full payment is required at time of submittal. See attached cost sheet. Amount Enclosed \$ _____.
